S6450-1

TWENTY-FIRST BIENNIAL REPORT — PART I

OKLAHOMA STATE REGENTS
FOR HIGHER EDUCATION

Fiscal Year ending June 30, 1981
Oklahoma City, Oklahoma

LETTER OF TRANSMITTAL

TO THE HONORABLE GEORGE NIGH
Governor of the State of Oklahoma
Dear Governor Nigh:

The Oklahoma State Regents for Higher Education herewith submit the Twenty-First Biennial Report — Part I in compliance with the Oklahoma Higher Education Code, Article II, Section 9.

This Twenty-First Biennial Report — Part I covers the period from July 1, 1980, to June 30, 1981 pertaining to The Oklahoma State System of Higher Education.

Respectfully submitted,
JAMES L. MILLS, Chairman

ATTEST:
JOE F. GARY, Secretary
E. T. DUNLAP, Chancellor

June 30, 1981
Oklahoma City
Oklahoma

The Oklahoma State Regents for Higher Education in compliance with Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and other federal laws and regulations do not discriminate on the basis of race, color, national origin, sex, age, religion, handicap, or status as a veteran in any of its policies, practices, or procedures. This includes but is not limited to admissions, employment, financial aid, and educational services.

This publication was prepared and distributed on authorization of the state regents as a regular part of the work of the agency. There were 500 copies printed by Mercury Press Inc. at a cost of $5,990 ($11.98 per copy).

CHAPTER I
PROGRESS AND PLANS

THE OKLAHOMA STATE SYSTEM OF HIGHER EDUCATION

General Progress of the State System

Chancellor E. T. Dunlap

The purpose of this section is to summarize the progress and prospects of Oklahoma higher education, both for historical documentation and to provide useful and informative data for the 1982 Oklahoma Legislature, the Governor, State System institutions and others interested in higher education in the state. The highlights of progress and statistics presented in this section are from the perspective of the state-level coordinating agency, the Oklahoma State Regents for Higher Education.

The state's higher education community was saddened by the loss of Dr. M. A. Nash, Oklahoma's first Chancellor, who died May 10, 1980, at the age of 90. Dr. Nash served as Chancellor from 1943 to his retirement in 1961.

The Oklahoma State System of Higher Education reached two milestones in its history during the year. December 19, 1980, marked the 90th anniversary of the establishment of public higher education in Oklahoma. On that date in 1890, Territorial Governor George Washington Steele signed the bill creating the University of Oklahoma at Norman. Six days later on December 25, 1890, Governor Steele signed the bills creating the Agricultural and Mechanical College at Stillwater, now Oklahoma State University, and the Normal School for Teachers at Edmond, now Central State University.

March 11, 1981, marked the 40th anniversary of the establishment of The Oklahoma State System of Higher Education. On that date in 1941 the people of Oklahoma in a special election adopted State Question No. 300, amending the state constitution. Article XIII-A, the new amendment, created the State System and provided for the establishment of a "coordinating board of control" over the State System, the Oklahoma State Regents for Higher Education.

In July, 1980, the State Regents published their long-range planning document, *Oklahoma Higher Education: Planning for the 1980's*. This latest in the State Regents' series of master planning documents is intended to provide guidance for the development of Oklahoma higher education in the years immediately ahead. It provides for systematic, continuous planning, making greater use of the resources and personnel of institutions in providing counsel and recommendations to the Regents.

Under provisions of the planning document, four planning councils were formed and began work dealing with the areas of instruction, research and graduate education, extension and public service and finance and budgeting. A fifth group, a task force on teacher education, was also formed to help with the implementation of higher education's responsibilities under House Bill No. 1706 of the 1980 Oklahoma Legislature, an act concerning teacher education and inservice training for teachers.

The State Regents' staff began work on four studies requested by the 1981 Oklahoma Legislature. The four areas to be studied are viability of Langston University, the provision of publicly-supported, upper-division and graduate education in the Tulsa area, the future of the Tulsa Medical College operation of the University of Oklahoma College of Medicine, and the feasibility of establishing a state two-year college in the Idabel area. The study reports will be forwarded to the 1982 Oklahoma Legislature.

An unusual increase in the activity of diploma mills and other unaccredited organizations purporting to offer collegiate course credits and degrees was called to the Regents' attention during 1980-81. Working with the Attorney General and the U.S. Postal Service, the Regents, operating under their constitutional and statutory responsibility to set the standards for all higher education in the state, sought to bring the blatant diploma mill operations to a halt. The Regents counseled with the administrative heads of several unaccredited organizations in an effort to assist them in meeting accreditation standards and thereby operate legally.

The State Regents hosted a Seminar on Educational Research in January, 1981, in cooperation with the American College Testing Program. The two-day-long seminar was attended by institutional research and student services personnel from public and private institutions throughout Oklahoma higher education.

Also, in January, the Regents adopted a standard medical information form for use by State System institutions. The standard form, developed by a committee of college and university health service and student development personnel, facilitates the transfer of authorized medical information among institutions when students transfer and obviates the need for additional medical examinations for transferring students.

Members of the State Regents and their staff attended the dedication of new facilities to house the state's two Higher Education Center Programs. The E.T. Dunlap Center in McCurtain County was dedicated on October 3, 1980, and the Ardmore Center was dedicated May 1, 1981.

Both facilities were provided by the local communities to house the higher education programs provided by State System institutions and administered by the State Regents.

At their May 27, 1981, meeting, the State Regents acted to raise the limits on Guaranteed Student Loans from $2,200 to $2,500 per year for undergraduates and from $3,600 per year to $4,000 for graduate students. A similar revision in the limits of loans made under the Oklahoma Student Loan Program was adopted by the Oklahoma Student Loan Authority May 19. The new limits were brought about by the rising costs of attending college.

Student Enrollments. The number of students enrolling in Oklahoma higher education, both public and private, in the 1981 fall semester was 168,748 which was an increase of 2.8 percent over those enrolled in the fall semeter of the previous year. Of those 168,748, 145,383 were enrolled in state-supported colleges and universities, an increase of 3.1 percent over the enrollments at the same time one year ago. Thus approximately 86 percent of all students enrolled in Oklahoma higher education in 1981-82 were in state-supported institutions and approximately 14 percent of the students were in private institutions of higher education.

The number of first-time freshmen enrolled in Oklahoma higher education in the fall of 1981 is equal to approximately 89 percent of the number of Oklahoma high school graduates in the spring of 1981. This college-going rate continues to place Oklahoma near the top of the 50 states.

Of those students enrolled in the State System institutions in the fall of 1980, 91.2 percent were residents of Oklahoma and approximately 8.8 percent were from other states and foreign countries.

Accreditation of Institutions. All 43 colleges and universities operating in the State of Oklahoma last year were accredited by the Oklahoma State Regents for Higher Education. All institutions of the State System and 11 private colleges and universities are also accredited by the North Central Association of Colleges and Schools, the regional accrediting agency. Oklahoma ranks among the leading states of the nation in the percent of its college students attending regionally accredited colleges and universities. Students attending institutions so credited are eligible for transfer to colleges and universities anywhere in the nation where their credits are accepted at face value.

New Education Programs. During the past fiscal year, a number of new educational programs were authorized at colleges and universities in the State System. Bachelor's degree programs were authorized as follows:

Northeastern Oklahoma State University — Nursing; Northwestern Oklahoma State University — Computer Science, Nursing; Southeastern Oklahoma State University — Speech Pathology, Vocational Home Economics Education; Southwestern Oklahoma State University — Industrial Technology; Langston University — Economics, Health Care Administration, Physical Therapy, Urban Studies, Environmental Science, Geography; Oklahoma Panhandle State University — Vocational Home Economics Education; University of Science and Arts of Oklahoma — Computer Science. Master's degree programs were authorized as follows: University of Oklahoma Health Sciences Center — Dental Sciences; Central State University — Adult Education, Early Childhood Education; Southwestern Oklahoma State University — Applied Music. Doctoral degree programs were authorized as follows: Northeastern Oklahoma State University — Optometry. Associate degree programs were authorized as follows: Oklahoma State University Technical Institute — Oil and Gas Field Management, Nursing; Claremore Junior College —Nursing; El Reno Junior College — Medical Laboratory Technology, Electronics Technology; Murray State College — Agriculture Meat Processing and Marketing; Northeastern Oklahoma A&M College —Legal Assistant, Medical Laboratory Technology, Energy; Oscar Rose Junior College — Mental Health Technology, Art and Marketing, Physical Therapist Assistant, Quality Control Technology, Bilingual Teacher's Aide, Word Processing, Broadcasting and Technology; Seminole Junior College — Banking Technology; South Oklahoma City Junior College — Electrical Service Technology, Heating/Cooling Service Technology, Psychiatric Technology, Physical Therapy; Tulsa Junior College — Chemical Laboratory Techology, Computer Specialist for Small Business, Engineering Technology, Physical Therapy Assistant, Sheet Metal Technology, Certificate programs were authorized as follows: Northwestern Oklahoma State University — School Psychometrist; Oklahoma State University Technical Institute — Horticulture; El Reno Junior College — Life Enrichment; Oscar Rose Junior College —Electronics, Mental Health Technology, Quality Control Technology, Bilingual Teacher's Aide, General Art, Graphics, Painting, Hand Crafts, Commercial Art, Industrial Drafting and Design; Tulsa Junior College —Medical Diagnostic Equipment Operator.

Student Aid. The Guaranteed Student Loan Program, which became operational in 1966, has guaranteed about 87,702 loans in excess of $101,168,259. This program involves a unique partnership of state and federal governments with private lending institutions to provide low-cost loans to students. The Guaranteed Student Loan Program has become an integral part of the financial aids package for Oklahoma students desiring to further their education. The 1972 Oklahoma Legislature enacted Senate

Bill No. 618 providing for the Oklahoma Student Loan Program. The purpose of this program is to provide loans to students as may be needed to help pay the cost of their education. The program supplements the Guaranteed Student Loan Program and provides a lending source to eligible students who are not otherwise able to identify a lender. There have been 36,092 loans, representing an investment of $36,383,272, made to students of higher education since beginning of operation of this program. The Oklahoma State Regents for Higher Education serves as fiscal agent for the administration of the Oklahoma Student Loan Program.

The Tuition Aid Grant/State Student Incentive Grant Program became operational in 1974. Funding of this program on a matching basis with state and federal funds provides an important addition to the already extensive program of student assistance administered by the Oklahoma State Regents for Higher Education. During the 1980-81 academic year, awards totaling $2,040,736 were made to 8,572 students.

Civil Rights Compliance Activities. Operating under the Oklahoma Revised State Plan for Civil Rights Compliance, the State Regents made the fourth Annual Report on programs in the area of civil rights. This report indicated positive progress was made in the participation of minorities in higher education in Oklahoma, although in certain areas progress was not being made as swiftly as desired.

Among the general areas discussed in the report were admissions and recruitment. Affirmative action training programs for management personnel of institutions of higher education have been continued. Articulation between junior colleges and senior institutions was reported, as was the program providing for free ACT examinations to indigent minority students. Overall recruitment procedures and results were reported, as well as the minority assistance program for master's, doctoral and first-year professional students.

In June 1981, the State Regents submitted for the fourth year to the Office for Civil Rights, Affirmative Action Compliance Plans from each institution in the State System. These plans, which total some 1,500 pages, represent institutions' commitment to goals of participation for black employees within the State System of Higher Education and were submitted with the endorsement and commitment of the Presidents of the institutions and governing boards.

For the sixth time, a comprehensive report composed of 21 sub-reports were was to the Office for Civil Rights on the number and classification of institutional employees, student enrollment, student progression, and student financial aid. The report was constructed by means of the State Regents' Unitized Data System.

Ardmore Higher Education Program. The Ardmore Higher Education Program had its beginning in the summer of 1974 with classes on the Ardmore High School campus. In August 1974, the program was moved to its own facilities at the Mount Washington School north of Ardmore, which served the Ardmore Higher Education Center for six years. A new facility has been constructed and was available for use in January 1981. The new building was provided at a cost of approximately $450,000, with all funds being donated from local citizens with a challenge grant from the Noble Foundation. This new facility is the permanent home of the Ardmore Higher Education Center and is located close to the new Ardmore High School to provide the potential for using some of the public school space during the evening hours.

The enrollment at the Ardmore Higher Education Center has increased from a fall 1974 headcount enrollment of 283 in 24 classes to a fall 1980 headcount enrollment of 751 in 59 classes.

McCurtain County Higher Education Program. The McCurtain County Higher Education Program in Idabel had its beginning in the fall of 1976. In 1978, the people of McCurtain County voted to build a new higher education facility for the Center through a bond issue to be paid back from a county-wide tax levy. The new facility was completed in the late summer of 1980 and first used for classes that fall. The Center was dedicated as the E. T. Dunlap Center for Higher Education on October 3, 1980.

Since that time, the classes have been taught in a modern 27,000-square-feet structure which houses: two televised instruction classrooms, a library, student and faculty lounges, administrative offices, a science center, an art center, a business/accounting center, and several large all-purpose classrooms.

The enrollment changes reflect a beginning fall 1976 headcount enrollment of 279 students in 20 classes, compared with a fall 1980 semester headcount enrollment of 533 students in 48 different classes.

The Educational Information Centers Program. The comprehensive State Plan for providing educational information, guidance, counseling, and referral services to all individuals in the state through centers located for convenient accessibility to all residents of Oklahoma is now becoming a reality. Since inception of the program, several comprehensive documents on postsecondary education and financial aid information have been developed and widely distributed to educational institutions, state agencies, business and industry, government officials, governing boards of regents, community and professional organizations and individuals.

The overall goal, which is to supplement and expand existing information dissemination progams and services to further ensure that the people of the state of Oklahoma do have quality and unbiased comprehensive information to make decisions concerning participation in postsecondary education, is now being realized. Consistency of information, quality of service, and improved recruitment stategy to increase student enrollments are projected outcomes of the coordinated statewide plan. During the year the educational information officers' network and center locations were increased from 44 to 49 with the addition of the military base installations in Oklahoma.

Technical-Occupational Programs. During the academic year 1980-81, technical programs were evaluated at Oscar Rose Junior College, South Oklahoma City Junior College, El Reno Junior College, and Oklahoma State University Technical Institute in Oklahoma City.

An inventory of educational programs conducted in 1981 reveals that there are currently 431 technical-occupational programs being offered at 24 state institutions with a projected full-time-equivalent enrollment of 19,879 and 28,939 head-count students expected for the 1980-81 academic year.

Degrees Conferred. In the year 1980-81, 11,190 Bachelor's and First Professional degrees were conferred by State System institutions, which was an increase of 5 percent over the 10,681 degrees conferred by State System institutions in 1970-71. In the past year, there were 3,080 Master's degrees conferred by State System institutions, which is a 20 percent increase over the 2,562 Master's degrees conferred 10 years ago. There were 354 Doctor's degrees conferred by State System universities in 1980-81, which is a 20 percent decease from the 442 Doctorates conferred a decade ago.

Televised Instruction System. The Oklahoma Higher Education Television Instruction System (more commonly known as Talkback Television) provided facilities at the Ponca City Library and the Kerr Conference Center in Poteau. Enrollments in Talkback Television continue to grow in new areas, with enrollments received at some 63 locations. Sequential course offerings, special degree programs, and special service courses and workshops continue to develop. Planning stages for expansion to Alva and a fault alarm system are in progress.

Title I (HEA) Community Service and Continuing Education Program. On September 16, 1972, the Oklahoma State Regents for Higher Education accepted the responsibility as the State Agency for Title I (HEA). This program enables the U.S. Federal government to make grants to states to strengthen the Community Service and Continuing

Education Programs of colleges and universities. Title I (HEA) is administered as a state operation under a state plan which identifies certain priority areas in which the institutions concentrate their project activities. During Fiscal 1980, citizens were served by seven Title I Projects. Participants were served in each of the priority areas identified for the State of Oklahoma. Under the Education Amendments of 1980, the Community Service and Continuing Education Program was consolidated with two other Federal programs to become the Continuing Education Outreach Program (Title I-B). Congress appropriated no funds for Title I-B for Fiscal Year 1981.

Number of Faculty. The total faculty of all Oklahoma higher education in 1980-81 was approximately 7,822 individuals. Of this number, 4,598 were full-time regular faculty members, and 3,224 were part-time teachers. Of the full time faculty, 3,741 were in the state-supported colleges and universities, and 857 were in private institutions. Of the 3,224 part-time teachers, 2,987 were in State System colleges and universities, and 237 were in private institutions.

Faculty Salaries. The average salary paid all regular full-time teachers in State System institutions in 1980-81 was $21,844 for the 9-10 month academic year. The figure represents a 38.2 percent increase over the $15,811 average salary paid five years ago. The average salary at the universities was $23,343 which is an increase of 30.1 percent over the $17,944 of five years ago; the average salary at the four-year colleges was $21,998 which is a 41.3 percent increase over the $15,567 average five years ago; and the average salary at two-year colleges was $19,126 which is an increase of 52.5 percent over the $12,541 average of five years ago.

Current Operating Expenditures. There was a total of $566,314,781 expended for current operations in The Oklahoma State System of Higher Education in the fiscal year 1980-81. Of this amount, $345,733,476 was expended for current operations in The Oklahoma State System of Higher Education in the fiscal year 1980-81. Of this amount, $345,733,476 was expended for the Educational and General — Part I Operating Budget; $53,940,561 was expended for the Educational and General — Part II Operating Budget (Sponsored Research and Programs); $27,417,566 was expended for Student Aid; and $139,314,781 was expended for Auxiliary Enterprises (housing, food services, student unions, etc.) Of the total current budget, 61.1 percent was expended for the regular educational and general operating budget, and 38.9 percent was expended for Sponsored Research and Programs, Student Aid and Auxiliary Enterprises.

Capital Improvements Program. Colleges and universities in the State System have been engaged in a capital improvements program was

planned for accomplishment during the period 1965 to 1975. Phase I, 1965 to 1970, was accomplished at a cost of $63,508,695 with $38,500,000 of the funding coming from state funds, and $29,008,695 from federal and private funds.

In 1968, the people authorized a bond issue to provide the state's part of the funding for Phase II of the Capital Improvements Program. The bond issue contained $34,250,000 for regular campus improvements and $26,870,000 for improvements at the University of Oklahoma Health Sciences Center. This Phase II Program was delayed by the federal government's curtailing federal funding to match state monies to underwrite projects. Although funds for health-related projects were delayed, federal funds were finally made available for construction at the Health Sciences Center. Only a small portion of federal funds were made available for regular campus projects.

In the spring of 1973, the Oklahoma Legislature in its adoption of Senate Concurrent Resolution No. 8 authorized the State Regents to proceed with allocation of state funds to accomplish as much of the capital improvements which had been planned for colleges and universities as could be done with state funds. Federal funds had not been made available, and it became necessary that the Regents and institutions move forward with making certain improvements at the campuses.

The Resolution also expressed intent of the Legislature that the State Regents in revising Campus Master Plans of projects to be accomplished give priority to the modernization and repair and provide modernized equipment for good, old buildings on the campuses.

The State Regents adopted a set of guidelines and procedures for carrying out legislative intent expressed in SCR No. 8 and requested that each institution file a revised Campus Master Plan of projects to be accomplished with the limited amount of state funds available to underwrite the costs. These campus plans subsequently were revised and priorities established and were submitted for the approval of the State Regents. Upon approval, the Regents authorized allocation of funds for accomplishing projects in priority order is the extent funds were available.

INSTITUTIONAL REPORTS

A brief summary of the services, achievements, problems and progress of each institution and agency of The Oklahoma State System of Higher Education for the year ending June 30, 1981, as reported by the Presidents, is presented on the following pages. Also, reports from Sayre Junior College and private institutions are included.

Statistical information regarding the operation of institutions will be found in Chapter II of this report.

THE UNIVERSITY OF OKLAHOMA

PRESIDENT WILLIAM S. BANOWSKY

Norman, Oklahoma

A dynamic partnership between the state, the University of Oklahoma and its alumni and friends provided a record budget, expanded fund-raising activities and academic and capital improvements that contributed to one all-encompassing goal in fiscal year 1980-81: improved academic excellence.

The Norman campus embarked on the new fiscal year with the greatest budget increase in the history of the university with a total educational and general budget of $63,167,423, a 19.8 percent increase over the previous year. Emphasis was placed on improving faculty and staff salaries, which were increased an average of 12 percent, and on upgrading instructional and research programs. Enrichment funds totaling $700,000 were designated for the library and the Colleges of Engineering, Business Administration, and Fine Arts.

Another special project reflected in the Norman campus budget was $600,000 to support research activity. OU Associates monies accounted for $300,000 of the research funds and other Associates funds were provided to add faculty and graduate teaching assistants to the mathematics department and the College of Business Administration, two areas of large enrollments.

In September 1980 the university announced its Campaign for Academic Excellence, a five-year, $103 million drive embracing 18 major goals designed to bring the university to national prominence by 1990. Virtually every area of the university is included, with emphasis placed on energy research and studies, the Health Sciences Center, the library, endowed chairs, and named professorships. Also included in the Campaign is a goal of $20 million for an Energy Center, a monumental facility that would bring together several of OU's strong energy programs and the new College of Geosciences, the formation of which was announced

Sept. 29. The new college and the Energy Center are expected to propel the university to a leading position nationally in the area of energy research and education.

Several projects and goals accomplished during the fiscal year were the result of a dynamic combination of the university, state and private sector. Two prime examples were the completion of the Huston Huffman Physical Fitness Center and continuation of construction of the addition to Bizzell Memorial Library. With $1.1 million from the state, $2 million in private gifts, and $3 million in bonds to be retired from student fees, the Huston Huffman Center was built and opened its doors in June. Construction of the library addition had begun last year, but the fund-raising efforts continued into 1980-81, culminating in February with the largest private gift ever presented to OU. The children of Doris W. Neustadt of Ardmore, chose to honor their mother by presenting a $2 million gift in her name to assist in constructing the library.

Also announced during 1980-81 were plans to construct a gymnastics practice facility for OU's varsity gymnastics program and a new School of Music building.

In addition to the important role it played in meeting OU's capital needs, the private sector also benefited several other areas of the university. The grounds, especially areas recently developed south of the central campus, will be more scenic because of the David Ross Boyd Tree Planting Project.

A bipartisan gathering of national and state political leaders, including former President Gerald Ford, Speaker of the House Thomas P. "Tip" O'Neill Jr., and Gov. George Nigh, highlighted a fund-raising dinner to endow the Carl Albert Congressional Research and Studies Center at OU in May.

A $200,000 endowment, given to OU in 1972, was used to increase the size of the Neustadt International Prize for Literature from $10,000 to $25,000.

An endowed professorship in botany and microbiology, the department's first, was estabilshed with contributions totaling $300,000 made in honor of OU President Emeritus George Lynn Cross.

The OU Associates Program, whose members give $1,000 annually to support academic programs, had attained 1,500 members by December 1980 and again had a significant effect on the quality of academic programs offered at the university.

Enrollment on the Norman campus continued its increase during fiscal '80-81, recording the highest enrollment in its history for all three

terms — fall, spring and summer. Fall enrollment reached 21,703; spring was 20,323, and summer was 8,210.

The year also saw reorganization of the OU Alumni Association, a previously independent association that was dissolved and re-established as an integrated part of the university.

A highlight of the year, which rekindled feelings of tradition among many former and present students, was the university's 90th birthday party, celebrated in December 1980 with a huge multitiered cake, 90 lighted candles, and throngs of OU administrators, staff, faculty, and students as well as Gov. George Nigh and Chancellor for Higher Education, E.T. Dunlap.

UNIVERSITY OF OKLAHOMA HEALTH SCIENCES CENTER

Oklahoma City, Oklahoma

With an enrollment of over 2,000 students, the University of Oklahoma Health Sciences Center continues to serve as the state's major institution for preparing physicians, dentists, pharmacists, nurses, public health specialists, biomedical researchers and a variety of allied health personnel.

The 1980-81 Health Sciences Center budget was $41.5 million, a $5.6 million increase over the previous year's. This budget consists of $37.1 million in state-appropriated funds and $4.4 million in revolving fund income.

During 1981 $6 million was allocated to the Health Sciences Center to help construct a new building for the College of Pharmacy. In the fall, it was announced that a $1 million gift from the estate of Henry D. and Ida Mosier would also go to the pharmacy building project. Groundbreaking on the structure, to be named in honor of the Mosiers, is scheduled for January 1982.

During 1980-81, there were about 200 research projects under way at the Health Sciences Center. The variety of research is evident from the following four examples:

(a) $450,000 from the National Heart, Lung and Blood Institute to continue a project into understanding cardiac pain and its possible modification by other visceral and somatic sensory inputs.

(b) a $246,000 grant from the National Cancer Institute for a long-term follow-up of breast cancer screening project participants.

(c) a $606,000 grant from the Health Resources Administration for a project designed to help increase the supply and improve the career mobility of trained nursing personnel in Oklahoma.

(d) a $159,000 grant from the National Cancer Institute for a project to design and implement additions for a multidisciplinary education program which addresses three major components of dental care in oral/head and neck cancer.

OKLAHOMA GEOLOGICAL SURVEY

Norman, Oklahoma

Continuing growth was recorded by the Oklahoma Geological Survey during its 73rd year of research and service to the public — a year during which emphasis was placed on the orderly development and use of the state's energy resources and raw materials. Funding for OGS activities came from state appropriations in the amount of $1,170,450, and from grants and contracts awarded during the year totaling $348,398.

Energy resource investigations were the primary activity of the survey. In Oklahoma, 95 percent of the value of the state's mineral production of more than $5 billion for the fiscal year was derived from petroleum and natural gas, making fossil fuel development an important OGS interest. But projects in coal, uranium and geothermal energy also were pursued.

The survey's petroleum geologists studied the potential for heavy oil recovery in the state and continued their research into aspects of enhanced oil recovery. The university also applied for a patent on a new OGS chemical prospecting technique that can be used to find oil by testing samples of reservoir rocks.

Another important industry in Oklahoma is coal, which contributes approximately $150 million each year to the state economy. The survey's coal geologists continued their mapping of coal reserves and mining activity, and studied the potential for using methane gas from coal beds as an energy source for small towns and rural homes.

Uranium studies conducted by survey geologists included assessments of uranium resources in north-central and west-central Oklahoma, and the potential for using "dry" oil and gas wells to tap geothermal energy resources in the state also was investigated.

Another important segment of the Oklahoma economy is the non-fuel minerals industry. The survey remained active in investigating minerals such as clays and shales, limestones and dolomites, and sand.

In the field of environmental and engineering geology, survey researchers studied the state's earthquake potential and reported on

efforts to find appropriate surface and subsurface locations for the disposal of hazardous wastes. A study to determine the hazards associated with underground lead and zinc mines in northeastern Oklahoma also was undertaken. Water studies were an important activity of the survey during the year, as a major project to compile hydrologic atlases of nine regions of Oklahoma neared completion and reports on the quality of water in northeast Oklahoma's abandoned zinc mines and in the Antlers aquifer were published.

Basic research continued to be an important OGS mission, and studies of the geology and mineral resources of five of Oklahoma's 77 counties were pursued in an ongoing effort to report on all of the counties' resources.

As a strongly service-oriented agency, OGS published or placed into open files results of all studies and answered all requests for assistance from the public. OGS representatives also conducted field trips, presented talks and attended meetings of various regional and national boards and committees.

The survey continued to maintain a microfilm log file of wells drilled in the state, an open file of site-specific information arranged by counties, and a file of 352 analyses of Oklahoma coals. OGS also sponsors a growing Core and Sample Library, which contains materials from many state wells.

UNIVERSITY OF OKLAHOMA LAW CENTER

Norman, Oklahoma

Increased funding — both in private contributions and state appropriations — was achieved during the 1980-81 fiscal year of the OU College of Law, which is looking forward to accomplishing new goals under the leadership of newly appointed Dean Wayne E. Alley.

Alley, who recently served as judge advocate for the U.S. Army in Europe, was appointed law dean in February by the OU Regents following a nationwide search that drew many distinguished candidates. OU law professor Barbara Lewis served as interim dean from August 1980 to July 1981.

The awarding of the law school's first endowed professorship and the establishment of another also highlighted the year. Longtime OU law professor Eugene Kuntz, a nationally recognized expert in oil and gas law, was selected in July 1980 as the first recipient of the Alfred P. Murrah professorship honoring the late U.S. district judge and OU law alumnus.

Kuntz, who retired in the spring, also will be honored with an endowed professorship in his name. Creation of a $300,000 endowment to establish the Eugene Kuntz Professorship in Oil and Gas and Natural Resources was announced in May 1981.

Selected in June to succeed Kuntz as Murrah professor was George M. Fraser, a David Ross Boyd professor of law who joined the OU faculty in 1949.

Continuing the OU College of Law's strong tradition in oil and gas law, Richard W. Hemingway was appointed in May to succeed Kuntz in teaching oil and gas law courses. A noted author and scholar, Hemingway recently was Horn professor of law and interim dean at Texas Tech University School of Law.

Several distinguished speakers visited the OU law school during the academic year to share their views with law students, professors and members of the community. Former U.S. Supreme Court Justice Arthur J. Goldberg was the featured Law Day speaker.

The college's law enrichment program also sponsored speeches by CSB-TV legal correspondent Fred Graham, nationally known criminal defense attorney Richard "Racehorse" Haynes, and former Solicitor General for the United States Wade McCree.

President Carter's adviser on women's issues, Sarah Weddington, was the featured speaker of a daylong "Women Unlimited" conference presented in January by the Organization for Advancement of Women in Law.

Women and minority students made gains in their representation at the OU law school, 1980-81 first-year class statistics show. Women made up 40.2 percent of the 1980 first-year class at OU, compared to a national first-year class enrollment average of 33.53 percent. Minorities comprised 10.3 percent of the entering class, compared to 9.72 percent nationally.

Law students, faculty and other members of the community continued to benefit from programs and activities offered by the OU Law Center during the year. The center's Continuing Legal Education program presented 16 seminars, workshops and institutes during the 1980-81 year which were attended by 701 attorneys and 380 law students. A total of 413 students were enrolled in 24 legal assistant program classes during the year.

For the first time in its six-year history, the regional round of the National Trial Competition was hosted by the OU law school. One of OU's teams finished among the top four of the 23 teams competing — the

best finish ever for the college — while the other OU team placed among the top eight teams.

Another team of OU law students won first place in the 10th circuit regional contest of the National Appellate Advocacy Competition sponsored by the American Bar Association. Law students also represented OU in the National Moot Court, American Trial Lawyers and Client Counseling competitions.

The college's clinical legal education program, in which law students represent Cleveland County indigents under the supervision of OU law professors and a staff attorney, received renewed support from the federal government with a $37,000 grant from the Department of Education.

State allocations for the OU Law Center were increased for the 1980-81 year. The center received $2,103,725 in state monies, up $253,337 from 1979-80. The Law Center's total 1980-81 budget, which included about $670,593 in revolving funds generated by tuition and fees, totaled $2,774,318.

OKLAHOMA STATE UNIVERSITY

PRESIDENT L. L. BOGER

Stillwater, Oklahoma

As the 1980-81 year drew to a close, Oklahoma State University was completing plans for announcing the concept and planning for its Centennial Decade program, pointing toward the university's 100th birthday in December, 1990. Nineteen OSU academic and support units had submitted initial Centennial Decade plans and the vice president of University Relations, Development and Extension had been appointed chairman of Centennial programs and activities.

During the year, accreditations were granted to three OSU academic units. The College of Veterinary Medicine, now in its new Veterinary Medical Teaching Hospital, received accreditation from the American Veterinary Medical Association. The teacher education program was accredited by the National Council for Advancement of Teacher Education, and the National Architectural Accrediting Board renewed accreditation for the architecture program with in the Division of Engineering, Technology and Architecture.

Outstanding recognition went to the University Food Service and Residence Halls Association. University Food Srvice received the Special Honorary Award from the National Association of College and University Food Service and RHA activities earned OSU School of the Year Honors from the National Association of College and University Residence Halls.

Six fraternities were named tops in the nation and one other received regional honors. Three sororities were also recognized nationally.

On the academic side, a new general curriculum, encompassing six categories of study, was implemented. The Undergraduate Teacher Education Curriculum and the Admission and Retention Standards were revised.

In 1980, OSU expended $26 million for research projects, some $5 million more than the previous year.

In the fall of 1980, enrollment on the Stillwater campus was 22,490, a substantial increase over the previous fall enrollment of 22,003.

Capital improvements included the renovation of the Classroom Building and the Student Union. The Veterinary Medical Teaching Hospital was completed and completion of the new Animal Sciences Building was near.

University Placement conducted interview schedules with employers for more than 12,000 students and listed more than 25,000 available professional positions.

University Extension supplied credit courses to more than 8,000 persons, and its public service effort continued at a high level through the Center for Local Government Technology, the Economic Education Center, the Physical Fitness Center, and others.

Internally, OSU implemented a new financial accounting system which provides more detailed and timely information. Also, a new accounts receivable system was established. It includes the automation of the receipting and collection function in the bursar's office and the consolidation of all accounts owed OSU.

Intercollegiate athletics enjoyed their best spring sports season since 1958, winning six Big 8 Conference championships. The baseball team added a second place finish in the College World Series.

COLLEGE OF VETERINARY MEDICINE

Stillwater, Oklahoma

1980-81 will be recorded as a most outstanding era in the history of the College of Veterinary Medicine, established March 1, 1948.

On March 23, 1981, Dean Patrick Morgan announced to a meeting of faculty, students and staff that the American Veterinary Medical Association Council on Education had approved full academic accreditation for the College following a report from a team that had visited the College on February 22 and 23.

After many years of planning and support from a lot of people, the new Veterinary Medical Teaching Hospital was dedicated on February 27. The Hospital is now in full operation and work on the Special Medicine area is scheduled for completion on November 1, 1981.

The College received a budget increase which enabled faculty and staff to receive substantial increases in salary. Seven new members joined the faculty and extensive revision of the curriculum was phased in during the year.

Total research funds from a variety of sources continue to increase with new research grants being received this year for the study of parturition in cattle, semen evalution in the bull and boar, serology detection of blue tongue in sheep and stifle joint surgery in dogs.

Seven faculty members were awarded fellowships from grants which were again made available by Sarkeys Foundation, Norman, Oklahoma to enable them to study and work with specialists in their fields of interest. These include radiology, thyroid function, medical mycology, toxicology and entomology, laboratory animal medicine, and foreign animal diseases.

Several extension programs were presented for veterinarians and animal owners throughout Oklahoma. The extension veterinarian is collaborating with the Kerr Foundation on a southeastern Oklahoma project on brucellosis eradication to be presented in October and November 1981.

The College sponsored a Fall Veterinary Conference on clinical pharmacology and toxicology.

Fourteen 7-minute programs on modern veterinary medicine were presented on Oklahoma Educational Television stations in collaboration with OSU Educational Television Services and the Oklahoma Veterinary Medical Association.

Seventy students were admitted to the class of 1985. The total enrollment for 1981-82 will be 276, with 97 women and 17 minority students. Two friends of the College pledged $1,000 per year for three years to establish the Dr. John Wilson Montgomery Scholarship for a black student in the College or who has successfully completed at least one year in pre-veterinary medicine.

THE OKLAHOMA AGRICULTURAL EXPERIMENT STATION

Stillwater, Oklahoma

Farmers and ranchers have used ear tags to identify their cattle for a

number of years. But a couple of years ago, they began using a tag that held more significance than mere identification. These tags were impregnated with an insect-repelling chemical that would stay with the animal and keep ticks and certain fly pests away for the best part of a season.

These tags were the direct result of the efforts of entomologists and veterinary research scientists working for the Oklahoma Agricultural Experiment Station. The tags are now being marketed nationwide, and have helped to bring profits and peace of mind to ranchers far beyond the borders of Oklahoma.

Oklahoma is quite varied in its agriculture, topography and climate. Because of this, research must be geared to the various areas of the state, or, in many cases it simply won't be applicable. To overcome this natural handicap, sixteen outlying experiment station sites have been located across the state to help producers meet inherent challenges caused by this diversity. In this manner, each station aims its research directly at the needs of that part of the state.

To help coordinate these efforts, and to help keep researchers in tune with the needs of producers, a system of advisory committees made up of farmers, businessmen and others across the state was created. With some 250 research projects in action at any given time, OAES researchers appreciate being able to pinpoint their efforts to the state's needs by working with this advisory system. Yet they are able to remain flexible enough to handle emergencies that arise.

One such emergency occurred last fall, when dry conditions caused farmers to drill their wheat as deep as they could in an effort to reach soil moisture needed to germinate the seed. The result was thin, spotty stands, with little wheat pasture and short yields. By this summer, the cause was apparent.

OAES researchers learned that most of the farmers having major problems had used popular, high-yielding semi-dwarf wheats as they normally do. Research data revealed that these wheats do not do well in dry conditions, and particularly when drilled in deep. During the next dry planting period, farmers will be encouraged to use varieties more tolerant to these conditions. Lack of moisture will still reduce yields — but not nearly so much.

Crossbreeding studies now being conducted have the potential to help state cattlemen increase their profits, while decreasing their costs. Shipping fever studies are beginning to show ways to keep transported animals alive and healthy. Shipping fever alone costs U.S. cattlemen up to $3 billion annually.

Many other success stories are waiting to unfold in the fields and laboratories of the Oklahoma Agricultural Experiment Station and many of the projects could, in time, have a direct bearing not only on Oklahomans and their agriculture, but on people everywhere.

AGRICULTURAL EXTENSION SERVICE

Stillwater, Oklahoma

High interest rates and fewer available dollars figure prominently in current educational programs of the Agricultural Extension Division of Oklahoma State University. The problems caused by these evident economic factors have been and are affecting practically every citizen from the farms and ranches of the rural areas to the main streets of every city and town.

In a sense, the "fight against inflation", a temporary measure at best, has become an emphasis on coping with and understanding an economic structure that appears determined to continue. Thus, an increasing number of the educational efforts of Extension personnel at every level are focused on farming, ranching and simply living in an economy which forces change.

The people-oriented arm of the Land Grant University leans heavily on lay planning and advisory committees on the county, district and state levels for program direction. And these committees, representing the citizens of Oklahoma, have indicated a real need. Homemakers are facing increasing problems, stretching budgets beyond the breaking point. Farmers and ranchers are seeing profit-producing efforts of the past end up in the loss column.

Extension's answers to these facts are evident. Programs emphasizing better farm management, consumer buying, energy conservation, and cost cutting in homes and farms are underway.

With more and more homemakers taking jobs, Extension is active in a "train the volunteer" educational program in child care careers. This program, aimed at career advancement, already has reached into 175 communities.

Farmers are receiving more and more information on producing crops at less expense through the application of reduced tillage methods programs and integrated pest management programs offering "total" protection against insects, nematodes, weeds and diseases at less expense.

Extension 4-H and youth leaders, in the face of juvenile problems once limited to urban areas, are emphasizing youth involvement in an expanding variety of positive programs and through leadership development among youth and adults in both rural and urban areas.

Specialists in rural development are developing and presenting information on proper management of mineral rights and rural crime prevention — home burglary and equipment theft in particular.

While these efforts have taken on added importance in Extension educational programs, they have not eliminated the *basic thrust* that Extension serves the needs of people. The Extension Center of every county in the state remains a veritable gold mine of educational material on practically every facet of homemaking, consumer education, and farming and ranching.

Services for Oklahoma citizens continue, such as soil, water and forage testing, the selection of superior sires for beef and swine producers through performance testing and improved farm and ranch management and marketing.

Other expansion programs, ranging from home gardening to woodland management, micro-computers to estate planning, and forage production to crop variety improvement are continuing.

While inflation hits at agencies as surely as it affects individuals and families, the Extension Division is stretching resources through the use of dollar-saving methods such as telephone conferences linking as many as 17 locations for one campus-based presentation and centrally-located off-campus programs for multi-county clientele audiences.

OSU SCHOOL OF TECHNICAL TRAINING

Okmulgee, Oklahoma

Oklahoma State Tech, the Oklahoma State University School of Technical Training, is the largest residential vocational-technical campus in the nation. During this reporting period, Tech experienced a slight enrollment increase as compared to the previous biennial report. Tech's three graduation exercises produced 978 young men and women who were eagerly sought after by business and industry throughout the state and nation. Business and industry representatives from several states regularly conduct on-campus interviews. The past performance of very able Oklahoma State Tech graduates within their organizations is the attraction. They recognize that the technical programs of great depth and breadth, supported by essential relevant general education courses, has resulted in earlier employed graduates performing well and enjoying being promoted to supervisory positions.

The total number of new students for the period October 1, 1980 through September 30, 1981, was 2,239. This enrollment truly reflects a cross section of the nation with students enrolling from Oklahoma's 77 counties, 34 other states, and 17 foreign countries. Tech's total enrollment

exclusive of duplicates for the three-trimester academic year was 4,092.

The industrial-educational campus atmosphere continues to be in step with the needs of business and industry through the guidance and assistance of its industrial advisory committees. The faculty of dedicated instructors possesses an average of 12 years of teaching experience and 9.45 years of industrial experience.

Many of the instructional staff are involved in personal professional development by enrolling in evening and weekend college and university courses offered in the area. Of the 173 faculty members, 146 now hold degrees ranging from the associate to the master's degree. Faculty members also visit industry during the non-instructional week between trimesters. Oklahoma State Tech's 47 technical programs are constantly under evaluation by the advisory committees and faculty to ensure that they reflect current technology.

Several improvements in the campus development were made during the year and progress continued on projects initiated prior to this reporting period. Several major campus streets and parking lots were resurfaced with asphaltic concrete; a new 14,042 square feet metal building with brick veneer finish was completed for the diesel department's heavy equipment mechanics program. This multi-purpose classroom/laboratory building is a welcomed addition for our expanding diesel program. Modifications were made in several campus areas to improve accessibility for the handicapped student and to meet requirement standards.

Oklahoma State Tech is serving the needs of the community through its continuing education evening program. During the reporting period, 91 academic or avocational courses were offered. Of this number, 56 courses were scheduled, serving 834 adults. Several of the courses were organized as a result of business and industry requesting specific courses for their employees. Concurrent high school enrollment increased over the previous year.

Oklahoma State Tech welcomed 3,573 visitors to the campus, representing both prospective students and prospective employers.

OKLAHOMA STATE UNIVERSITY TECHNICAL INSTITUTE

Oklahoma City, Oklahoma

During the 1980-81 school year, preliminary plans were drawn up for a new engineering technology building which the Institute needs to

replace an old leased facility some two miles from the main campus. In November 1980, the OSU board of regents forwarded a request to the Oklahoma State Regents for Higher Education stating their strong support for a new facility for the Technical Institute. The staff of the Regents for Higher Education is currently making a study of the Institute's space needs.

Enrollments continued to increase with over 200 students making up a record high of 2,642 students in the fall of 1980. Most of these new students were enrolled in computer programming and related areas.

The new student center and formal gardens were dedicated at ceremonies in the spring of 1981, marking the official opening of the new facility. The unveiling of pictures in the foyer depicting scenes of Oklahoma highlighted the event. The formal gardens located on the south side of the center displayed a wide variety of shrubs and floral designs.

OSU board of regents' approval was given to the Institute to develop an additional 28 acres of land to the south of the present campus. This land will be developed as a laboratory for horticulture, civil, architectural, fire, oil and gas, and surveying technologies. Roads will be constructed, the area will be fenced, and a water well will be drilled to provide water for the development of horticulture plots.

A capital improvement project to improve energy usage on the campus was approved and initiated. This consisted of new computerized monitoring equipment to control and maintain temperatures in the two main buildings on the campus. Additional outside doors were added to the administration building to conserve energy.

A new computer was installed in the Institute, marking the fifth generation of computers the Institute has used since the inception of computer programming in 1964.

Two new technologies were approved by the Oklahoma State Regents for Higher Education to be offered in the fall of 1981 in oil and gas field management and accounting.

An extensive staff and title study took place during this period which revised and modified the classified, administrative and professional staff positions on the campus.

The hearing impaired project received an additional boost with the selection of a new coordinator and an increase in the number of hearing impaired students.

Cooperative efforts were initiated with the main campus to develop joint extension and alumni offices in Oklahoma City on the Institute

campus. This cooperative arrangement will strengthen the relationship between the two entities and yield a greater collective effort for OSU in Oklahoma City. In addition to this, a technical information center is being planned in Oklahoma City which will utilize the extensive library resources of the main campus and make those resources available to Oklahoma City business and industry through the library staff of the Institute. The Institute library will be linked to the main library on the Stillwater campus by phone, computer and courier service.

CENTRAL STATE UNIVERSITY

PRESIDENT BILL J. LILLARD
Edmond, Oklahoma

Central State University, responsive to the higher education needs of the people of Oklahoma, has continued to develop and mature as a comprehensive liberal arts university. The year of Central State University's 90th birthday proved to be a dynamic period not only for continued growth and development but for instituting many firsts. Students and community oriented, teaching, research, and service continue to occupy paramount positions in establishing priorities.

In response to the direction set by the Oklahoma State Regents for Higher Education, in self-study and evaluation, Central State University conducted a thorough Management Audit of the University. Responsive to the needs identified through the audit process Central State University revised and received approval of a new statement of mission. Merit salary considerations and postdoctoral sabbaticals were instituted as a result of recommendations stemming from the Management Audit. The Planning for the 80's Advisory Committee, chaired by the President of the University, continues working toward integrating a comprehensive planning and management system into the administrative structure for dealing with change in the decade of the 80's.

The academic program was expanded to meet the needs of students in new and emerging fields of study. The State Regents for Higher Education approved, and Central State University implemented two new master's degree programs, an M.Ed. in Early Childhood Education and an M.Ed. in Adult Education. Exemplary of public recognition of quality programming, Central State University was asked to request authorization to offer the MBA program at Tinker Air Force Base and approval was granted. Central State University now offers 3 certificate programs, 8 pre-professional programs, with 112 options, and 21 master's degree programs with 75 options.

Improvement of faculty salaries has long been and will continue to be a high priority item. Central State University's 1980-81 average faculty salary is the highest in the state system of higher education and a study

provided by the Oklahoma State Regents for Higher Education revealed the average 9-10 month faculty salary at CSU ranked number one in the region. Increases in staff benefits including professional liability insurance and an improved retirement program were approved. Prudent management policies regarding fiscal matters and work load assignments have made these salary and benefit increases possible for a deserving and hard working faculty.

Central State University again experienced an increase in enrollment with 12,004 students enrolled for fall 1981. To facilitate the enrollment process a new telephone enrollment for graduate students was instituted. Central State University made progress in the recruiting of minority students and in the hiring of minority faculty and staff members. We remain dedicated to the spirit and reality of the Affirmative Action process and continue an active Affirmative Action Advisory Committee for the university. To be more responsive to the needs of all students and in compliance with federal regulations, implementation of the Architectural Barrier Removal Program has continued as outlined in the transition plan and implications for the Title IX legislation have been evaluated and remediation steps have been addressed.

The top priorities in capital improvement, improved and additional space, paving of parking lots, lighting, and campus beautification, were continued. The Talkback TV Annex and the Howell Hall Annex are being equipped and occupied. Planning is in the final stages for a new building to ease some space needs in business, math and computer science. Emergency lighting systems and smoke detectors have been added.

EAST CENTRAL OKLAHOMA STATE UNIVERSITY

PRESIDENT STANLEY P. WAGNER

Ada, Oklahoma

The year 1980 brought student enrollment to the highest in the history of the university. There were 3,973 students enrolled in the fall of 1980. This has continued a trend of the last ten years, which has seen a growth of approximtely 25% during that period. The students are essentially from Oklahoma with only a small percentage of out-of-state or foreign students.

That same period of time has also seen a sharp change in the career selections of students. While teacher preparation is still the largest single area, it has dropped from 60% of the student body to approximately a quarter of the population. The largest increase has been in the area of Accounting and Business Administration majors. In 1971 there were 101 Accounting majors and 166 Business Administration majors for a total of 267. In 1981 there were 290 Accounting and 422 Business Administration majors.

A comparable growth and development is occurring in other areas. Classroom space is being remodeled to accommodate the new Radiological Technology program. This program is in keeping with the new emphasis that has been given beyond the teaching and business areas. These are the health related fields which now include Health Administration, Medical Technology, Environmental Science and Medical Records in addition to those mentioned earlier.

East Central in keeping with its new responsibilities as a regional university is also developing the area of research. A special institute has been approved for Environmental Research. This will permit East Central to work closely with the Robert S. Kerr Environmental Laboratory, which is located in Ada.

NORTHEASTERN OKLAHOMA STATE UNIVERSITY

PRESIDENT W. ROGER WEBB

Tahlequah, Oklahoma

During 1980-81 Northeastern Oklahoma State University experienced continued success in an atmosphere of optimism and commitment. The accomplishments of the preceding two years were enhanced and new programs undertaken.

Enrollment increased 6 percent over the preceding fall semester. New freshmen enrollment showed even more striking progress with a 9 percent gain. Additionally, the occupancy rate for the student housing system again climbed dramatically another 22 percent. In the two years since the fall semester of 1978, Northeastern Oklahoma State University housing occupancy has risen 64 percent.

The spirit of success is contagious. The varsity football team, the Redmen, proudly represented not only Northeastern but the state in the National Association of Intercollegiate Athletics (NAIA) national finals, finishing as national runners-up. National recognition was also received by the Debate Club which won regional and national competitions this year.

More than 30,000 citizens of Northeastern Oklahoma visited the campus during the spring festival known as Kaleidoscope 81. There were lectures by scientist B. Gentry Lee and journalist Howard K. Smith, and seminars, concerts, debates, films, banquets, demonstrations, clinics, workshops, competitions and numerous other educational and cultural activities. Kaleidoscope not only broadens the horizons of the student body but also creates an opportunity for educational stimulation and exchange for the faculty and the people of Northeastern Oklahoma as well.

The Optometry program was granted full four-year approval by the Oklahoma State Regents for Higher Education and promises to be a distinguished and valuable addition to the educational resources of this state. The State Regents also approved a new program which with two years of study would lead Registered Nurses to a Bachelor of Science in Nursing degree.

Among recently approved programs, the demand in the computer science major was more than gratifying. All these new programs provide Northeastern the opportunity to serve a wider range of constituents' needs.

Capital improvement funds for a Physical Fitness Center were provided by the state legislature and the State Regents. The construction of this facility, which is part of the campus master plan, will greatly expand the health and fitness opportunities for students and employees.

Again this year the university hosted thousands of high school students for a variety of programs including history, debate, mathematics, business, vocal and instrumental music, athletic events, and many more. These varied programs encourage high standards and demonstrate among these students the real value and possibiity of a future college experience.

In all outreach activities and the educational experiences on campus the faculty and staff benefit as much as the students and the public. It is the multitude of simultaneous dialogues which make Northeastern a vital and vibrant center for learning.

NORTHWESTERN OKLAHOMA STATE UNIVERSITY

PRESIDENT JOE J. STRUCKLE

Alva, Oklahoma

The 1980-81 school year was very successful. The legislature was very generous, which enabled Northwestern to accomplish much during this time.

The 1980-81 record budget for Northwestern enabled the university to bring faculty salaries up to approximately $25,000 per faculty member. Northwestern now has the fifth highest paid faculty in the Oklahoma State System.

The State Regents for Higher Education approved new programs in Nursing, Computer Science, and School Psychometry.

The 1980-81 school year saw the Industrial Education building completely refurbished and modernized. The renovation of Herod Hall Auditorium was also completed during this period.

The State Regents for Higher Education also allocated monies to bring Talkback Television to the Northwestern campus, and to refurbish Carter Hall for the Nursing program.

SOUTHEASTERN OKLAHOMA STATE UNIVERSITY

PRESIDENT LEON HIBBS

Durant, Oklahoma

In the fall semester of 1980, Southeastern had a total resident collegiate enrollment of 4,328 and a total off-campus collegiate enrollment of 182 making a grand total of 4,510 students. Of this number, 1,020 were first time freshmen. The total student credit hour enrollment for the 1980 fall semester was 48,275.

The full-time teaching faculty remained at approximately the same number in 1980-81 as it was the previous year, and the purposes and functions continued to be mission-oriented seeking to serve the students and community.

During the 1980-81 school year, a full-time business manager was assigned to the library to expedite purchasing, utilization of space, and general management of the non-professional aspects of the library. An additional professional was added to the library staff (circulation librarian). An updated and modern security system was installed.

The Biomedical Science Program continued in its sixth year. The total number of presentations and articles submitted for publication in 1980-81 was 30. National publications that continue to be published by Southeastern Oklahoma State University and edited by its faculty include the *Red River Valley Review*, *Red River Valley Historical Journal of World History*, and *The Horn Call* (Journal of the National Horn Society).

New programs were instituted in 1980-81 in Speech Pathology and Vocational Home Economics. Both programs have visible enrollment and appear to be serving needs of Southeastern Oklahoma.

Fifteen additional Parsons Scholars were selected in the spring of 1981. The university now has three full classes of Parsons Scholars (15 in each class) which represent a center of academic excellence for the university.

The Placement Service, in cooperation with the Teacher Education Department, held its second Teacher Placement Day in April of 1981. The placement survey compiled in the fall of 1980 showed a total of 366 applicants placed. Of this number, 271 were placed in teaching positions and 35 in other types of positions.

The Oklahoma Summer Theatre Festival had its opening on the Southeastern campus during the summer of 1981.

The Division of Industry occupied Phase III of the Industry and Technical Complex. The building is a new concept in design and is solar heated.

A concentrated effort to upgrade maintenance campus-wide effective with the 1979-80 school year was continued as a priority during the 1980-81 school year.

SOUTHWESTERN OKLAHOMA STATE UNIVERSITY

PRESIDENT LEONARD CAMPBELL

Weatherford, Oklahoma

The North Central Association of Colleges and Schools continued the accreditation of the university at the master's degree granting level for a ten-year period, and the National League of Nursing accredited the Division of Nursing for a six-year period.

In the School of Arts and Sciences, the Chemistry Department received grants of $2,500 from the Halliburton Education Foundation, $1,000 from the Conoco Financial Aid to Education Program, and $500 from the Professional Development Fund of the Phillips Petroleum Company. These grants were used for faculty development activities and for scholarships for senior majors. The university received a grant of $48,000 from NEH for the development of a Regional Studies Program, a project being developed by the Language Arts and Social Sciences Departments. The National YMCA SCUBA program named the Health, Physical Education, and Recreation Department as the Mid-America Regional Office. An addition to the physical education building is under construction. New degree programs in Engineering Physics and Industrial Technology (Industrial Education) have been approved, and a minor in Fashion Merchandising is now offered in the Home Economics Department. Faculty members in several departments are involved in publishing *Westview*, a new regional studies quarterly.

The School of Business initiated an annual awards banquet to recognize outstanding business students. A Southwestern student received the Gold Medal award for the highest score on the state Certified Public Accountant Examination. The Phi Beta Lambda chapter won the best chapter award for the 14th consecutive year. The School of Business developed a still stronger working relationship with the public schools, and with business and industry, especially the oil and gas industry. Faculty development awards and student scholarships were awarded by Phillips Petroleum Company and Conoco, Inc.

The School of Education expanded its Professional Development Center Network to include seventy-seven schools. This program will provide faculty development, inservice, and enrichment activities for public school and university faculty and administrators. Faculty members in the Psychology Department chair five state and area organizations and Southwestern students serve on the executive board of the Oklahoma Psychological Board, and as president of the Student Oklahoma Psychological Association.

In the School of Health Sciences, 21 students graduated from the nursing program in May, 1981. A Medical Technology curriculum involving a closer working relationship between affiliate hospitals and the university has been developed by the faculty in the Allied Health Sciences Division. Teaching and Research capabilities in the School of Pharmacy have been strengthened by the addition of four faculty members.

Enrollment in the Graduate School increased 18 percent during the 1980-81 academic year. The Master of Music degree was approved in 1980-81.

The university conferred 901 degrees at Convocation Exercises in July, 1980 and May, 1981, 145 in Arts and Sciences, 158 in Business, 212 in Education, 183 in Health Sciences, and 203 in the Graduate School.

CAMERON UNIVERSITY
PRESIDENT DON C. DAVIS
Lawton, Oklahoma

No report received.

LANGSTON UNIVERSITY
PRESIDENT ERNEST L. HOLLOWAY
Langston, Oklahoma

Of paramount importance in the accomplishment of Langston University's new mission has been the expansion of its academic program offerings. The new degree programs planned during the previous year, Computer Science, Nursing, Psychology, Gerontology, and Nutrition and Dietetics were implemented in the Fall Semester of 1980. All of these programs have enjoyed a high level of acceptance and most are experiencing rapid enrollment increases. New programs planned for future inclusion in the curriculum are Economics, Urban Studies, Health Care Administration, Personnel Management, and Physical Therapy.

There has been a continued and aggressive renovation program, including a security and dispatch building with the latest equipment in

radio communications; an underground sprinkler system has been installed at a cost of $75,000.00; a new physical plant is currently under construction; renovation of University Women Dormitory has been completed and now houses Cooperative Extension, Federal Programs, Alumni Relations, Trio Program — Upward Bound, Special Services and Talent Search.

A $158,534 grant was received to assist in developing a rural program that will place Langston students in several communities.

The Industry-Cluster Program initiated in 1969, which had as its purpose to assist developing institutions through cooperative arrangement between the corporate company and Langston University, was revitalized.

A Public Relations Advisory Board was established. Members of the board are persons in the news media who meet quarterly on campus to share their expertise. The input by the Advisory Board has more than fulfilled the purpose for which it was established.

The Communication Department joined the Associated Press News Service. The acquisition was made possible through a $5,000 grant from the William Randolph Hearst Foundation of San Francisco. This will make Langston one of only seven colleges and universities in the State of Oklahoma to have access to the service.

Fiscal Year 1980-81 was also a year when a number of nationally known personalities visited the campus. Most outstanding were Alex Haley, author of *Roots;* Nikki Giovanni, poetess; Parren Mitchell, U.S. Congressman from Maryland; Dr. Ted Shine, playwright; and Tony Brown, TV host, "Tony Brown's Journal."

Fulfilling the "new urban mission," the success of the Urban Centers, especially the Tulsa Center, has exceeded expectations and previews even greater accomplishments in the years ahead.

OKLAHOMA PANHANDLE STATE UNIVERSITY

PRESIDENT THOMAS L. PALMER

Goodwell, Oklahoma

Panhandle State University since its inception by the state legislature in 1909 has provided leadership in higher education, for the high plains area, in the agricultural and mechanical arts. The university over the years has diversified to provide a broad educational experience in the liberal arts and general education as well as specialization in diverse fields all the way from the fine arts and humanities to teacher education, business administration and science.

The faculty of Panhandle State University is dedicated and well trained. Twenty one have the doctor's degree (including five part-time professors). The master's degree is the minimum entry level into regular faculty status. The faculty recently developed a program of professional development which promises to keep faculty members mentally alive and abreast of changes in their particular discipline and in the profession generally.

The administration and faculty are sensitive to student longings and curricular needs. This year a Vocational Home Economics Education Program has been approved by the Oklahoma State Regents for Higher Eduction to provide public schools with vocational home economics teachers. A minor in computer science has been implemented with all classes full.

Intercollegiate athletics provides, through competitive teams in football, basketball and track, a focal point for student morale. The basketball team advanced to N.A.I.A. semi-finals where it was eliminated by the team that ultimately won the national title. Coupled with significant vocal, instrumental groups and dramatic presentations, the university provides for the delicate mix between cultural and athletic events as well as the pursuit of academic excellence.

The Marvin K. McKee Library is the center of academic life on campus. Well equipped and growing, its collection includes 87,781 volumes and 455 magazines, journals and newspapers.

The university confers three baccalaureate degrees; the bachelor of arts, bachelor of science and bachelor of music education. In May 1981, 142 baccalaureate degrees were awarded. The 20 major fields graduating students included: accounting 11; agribusiness 15; agronomy 5; animal science 10; biology 10; business administration 16; business education 3; chemistry 1; elementary education 23; English 1; health and physical education 16; home economics 6; industrial arts 6; mathematics 1; medical technology 1; music education 1; psychology 9; secretarial science 1; social science 2 and speech 4. The Military Science Department awarded a commission as second lieutenant to one of its graduates.

Besides accreditation by the Oklahoma State Regents for Higher Education, the university is regionally accredited by the North Central Association of Colleges and Schools (1985) and by the National Council for Accreditation of Teacher Education (1988). The teacher eduation program is also fully accredited by the Oklahoma State Department of Education.

A giant step forward occurred in the summer of 1980 when the Oklahoma State Regents for Higher Education approved $350,000.00 in

capital improvements for the planning and construction of a new "Meats Laboratory". The building currently is in the process of being completed with the target date of January 1982 for occupancy. The university continues to have critical capital improvement needs in the area of renovation and refurbishing of some older buildings to bring them up to modern day standards, including modifications to assist the handicapped in gaining access to all buildings. The heating and air-conditioning facilities need updating to provide comfortable conditions for students and the professional staff to work and study.

Panhandle State University is justifiably proud of the achievements of the past and looks expectantly to contributing to the needs of the Oklahoma higher education in the great high plains area of the state during the decade of the eighties.

UNIVERSITY OF SCIENCE AND ARTS OF OKLAHOMA

PRESIDENT ROY TROUTT

Chickasha, Oklahoma

Physical plant improvements at the University of Science and Arts of Oklahoma campus continue to enhance the environment in both academic and social areas of the campus. The improvements are being funded through both state appropriations and private sources.

USAO opened the fall term in the newly renovated Austin Hall. This facility houses the departments of mathematics and sciences, speech and hearing therapy, and computer science.

Groundbreaking for the renovation and expansion of the Physical Education building is another important step in the continuing growth of the university. Phase I of the million dollar addition of a new gymnasium is expected to be completed in the fall of 1981. The five-year project, when completed, will provide the Univerity with a comprehensive Health, Physical Education, and Recreation facility.

Work progressed through the year on the former steam plant which is being renovated through USAO Foundation funds and work by the Young Adult Conservation Corps. The facility will house the university's three dimensional art programs in ceramics, welded steel, wood sculpture, jewelry, and casting.

The USAO Alumni Association has undertaken the renovation of areas of the Student Union Building. The first area to be completed is a dining room and lounge.

The USAO scholarship program, supported by the USAO Foundation, continues to attract talented students to the campus. Some 42 percent of entering freshmen were ranked in the upper 10 percent of

their high school graduating class. These and other students of high academic achievement are continually improving the quality of the student body.

USAO's library service has expanded with 6,065 additions to the holdings. Student use of the library has significantly increased over last year.

In furthering USAO community service efforts, the university has entered into a contract with the Bureau of Indian Affairs to participate in a cooperative education work-study program. The university has also entered into an agreement with the Caddo County Education Cooperative for audiological services. This program will assist the university's educational and service programs and will service some 23,707 area school children.

USAO Regents and State Regents approved a new degree program in Computer Science to be implemented in the fall of 1981. The new degree is expected to open with some 50 majors.

The Young Adult Conservation Corps, a federal project housed on campus, renewed a contract in the amount of $388,864 for the fiscal year ending September 30, 1981. The YACC provides public service work on the USAO campus and throughout the State.

An evaluation team from the State Department of Education reviewed USAO's teacher education programs and approved all eighteen programs. A team from the National Council on Accreditation of Teacher Education was on campus to evaluate the university's teacher education program on the basis of six standards. The university met all six standards.

THE OKLAHOMA COLLEGE OF OSTEOPATHIC MEDICINE AND SURGERY

PRESIDENT JOHN BARSON
Tulsa, Oklahoma

The Oklahoma College of Osteopathic Medicine and Surgery enters its eighth year of existence with considerable satisfaction and confidence in future developments. On January 5, 1981, the Oklahoma State Regents for Higher Education officially transferred governance of the college to the new Board of Regents appointed by Governor George Nigh on September 11, 1980, as provided for in Senate Bill No. 539 of the 1980 Oklahoma Legislature which was signed into law on April 1, 1980.

Since the first entering class was admitted to the College in 1974, 576

students have enrolled in the degree program. Of that number, 297 graduates are now in active practice, many as general practitioners in rural communities of Oklahoma. With the completion of this decade of training physicians, the college will have sufficiently matured to turn its attention to the other five institutional functions authorized by the State Regents on January 28, 1974.

These additional functions deal with development of services in the areas of health care research and internship and residency training. The activities associated with these functions will be accomplished through implementation of two new college units, the Division of Research and Development and the Division of Clinical Affairs.

Recently, the Division of Research and Development received national recognition for its work in behavioral medicine through research and development in biofeedback methodology. Significant research is also being conducted with regard to diseases which are inherited or acquired with particular emphasis on cystic fibrosis and cardiovascular disease.

Perhaps the most prophetic aspect of college development is the importance currently being placed on gerontology and proposals for implementing an adult day care center in the near future to be housed in clinical facilities of the college.

The newly authorized Division of Clinical Affairs introduces permanent input of medical expertise previously available only at hospitals affiliated with the college.

The Oklahoma College of Osteopathic Medicine and Surgery enters the decade of the 1980's with a resolve to fully implement its functions assigned by the State Regents and to fulfill the purpose for which this institution was created.

CARL ALBERT JUNIOR COLLEGE

PRESIDENT JOE WHITE

Poteau, Oklahoma

Carl Albert Junior College's rapid physical and fiscal growth which began in the mid-1970s continued during the 1980-81 academic year.

CAJC began 1980-81 operating with the largest budget in the school's history, $2,060,852 plus $300,000 for capital improvements.

As the school's new Technical-Occupational Building was being dedicated in September 1980, planning was underway to use the new capital funds to expand CAJC's original Classroom Building. Groundbreaking for the expansion was later in the fall, and the project, which added classrooms and labs for computer-assisted instruction and computer science and nursing programs was completed in late spring 1981.

Enrollment in 1980-81 grew right along with the campus. Enrollment increased both on the Poteau campus and in classes offered by CAJC at the E.T. Dunlap Center for Higher Education at Idabel. For the first time since CAJC was established as an independent campus in 1967, the school passed 1,000 annualized FTE. CAJC's 1980-81 FTE was 1,011. Total number of students during 1980-81 was 4,483 enrolled in 30,393 credit hours.

The fall semester of 1980 also marked the beginning of classes in the school's hotel and restaurant management program. Eventually the program would move into the late Sen. Robert S. Kerr's home which was undergoing extensive remodeling and refurbishing to become the Robert S. Kerr Conference Center.

Later in the year, the nursing program, still in the planning stages, hired a director who helped move the program through final approvals from the State Nursing Board. During the summer of 1981, CAJC's new Department of Nursing Education moved into one of the new sections of the Classroom Building and selected its first class of 25 students.

After receiving a $190,000 National Science Foundation grant, the computer-assisted instruction and computer science programs began moving into another new section of the Classroom Building and purchasing equipment to begin operation during the fall 1982 semester.

Other projects and events during the year which further illustrated CAJC's continued growth included a complete remodeling and equipping of the school's instructional photography darkroom; a speech tournament that attracted more than 300 high school students; a regional VICA auto service contest which drew contestants and observers from several eastern Oklahoma high schools; the second annual Miss CAJC Pageant that featured Miss America, Susan Powell; two theatre productions, "Exit the King" and "See How They Run," and a variety of seminars, including the fourth annual Women's Seminar on management skills, a series of 10 workshops in cooperation with the Small Business Administration, a bass fishing workshop and a special flaming foods seminar sponsored by the hotel and restaurant management program.

As 1980-81 came to an end, Carl Albert Junior College faculty and administrators continued to plan further growth. Plans included completion of Classroom Building expansion and an addition to the library.

The Classroom Building project included plans to complete a reception area and office for counselors and students services personnel, a classroom and a combination conference room/classroom.

Library expansion called for almost doubling square footage, adding

a special audio-visual section and remodeling the old section to match the addition.

CLAREMORE JUNIOR COLLEGE

PRESIDENT RICHARD H. MOSIER

Claremore, Oklahoma

The college at Claremore established a new and higher level of institutional strength and ability during 1980-81 as a foundation and base for the decade of the 80's. By year's end, an eager readiness to provide a broad range of appropriate institutional and instructional services to a rapidly changing clientele and service area pervaded the campus.

Policies and procedures were reviewed and clarified as communication models were developed and implemented under the leadership of the members of the administrative council. As a result, a renewed sense of unity and mission permeated the college and the community as we celebrated with Chancellor Dunlap the Tenth Anniversary of the major shift in role and function of the college to a comprehensive, state-assisted, two-year institution.

External funding so necessary to establish quality reached a record high as more and more individuals and agencies examined the college and found in it cause for interest and support.

Utilizing external funds, the faculty for the Associate Degree Nursing program essential to meet a critical need in the area health care agencies was employed and plans made for the full inauguration of the program in the fall of 1981.

Work was begun on the renovation of the Will Rogers Auditorium with funds allocated by the Oklahoma State Board of Regents for Higher Education, while external and institutional funds were utilized to complete the remodeling of the Pershing Rifle Range and continue the modernization of Meyer Hall, the Music Hall, the Business and Applied Arts Building, and Markham Hall.

A fall enrollment of 1,872 accompanied by a record spring enrollment and a record 4,000 people enrolled in credit-free programs gave rise to an optimistic view of institutional enrollment trends for the first part of the decade.

Enrollment in Computer Science, Accounting, Engineering, Mathematics, the sciences, and the technologies reached new highs during the year. The quality of the instruction in those areas, as well as in the Learning Resource Center, the Special Services Division and the

Counseling and Guidance Center, was greatly enhanced by the infusion of external funds. So taken with progress towards excellence was the entire college staff that the theme "A Personal Kind of Education With A Touch of Class" was adopted as the guiding motto for the 80's.

Although many improvements were made in facilities and equipment, the gains by contrast served to heighten the awareness and understanding of the students, staff and general public of the sorry state of equipment and facilities for particular programs at year's end. Capital funding for the quality that is within the grasp of the college and all of Oklahoma in the 80's continued to be the most critical limiting factor in the success of the institution.

CONNORS STATE COLLEGE

PRESIDENT CARL O. WESTBROOK

Warner, Oklahoma

During the 1980-81 year, the college continued to show growth in student population for both the traditional and non-traditional segments. The major emphasis for this particular year was necessarily placed upon raising teachers' salaries, capital improvements, and continued campus beautification.

The Capital Improvements Project consisted of the construction of an Agriculture Equine facility, housing an indoor area to accommodate the Equine program which showed excellent growth in only its second year of operation. Additional Capital Improvements Projects are needed in order to continue to improve the physical facilities on our campus. The Library, though adequate in volume of books, is old, unexpandable, and far too small in square footage to accommodate our population. A new library building, the heart of any institution, is an urgent need at this college, and it is our number one priority in Capital Improvements for the ensuing years.

Energy and energy consumption continues to play a major role in the operation of the college, mandating that we continue in our efforts to reduce consumption through conservation measures of various natures.

The college continued to serve the people of Muskogee with extension classes, and the demand of that city relative to this program showed no decline. In addition to our extension program, numerous community service programs have been utilized. The highlight of these programs was the hosting of a Muskogee Creek Nation Career Exploration Camp for some 400 young people 14 to 21 years in age. This camp was a CETA project by the Human Development Department of the Creek Nation, and is one of three among 21 nationwide projects selected for special recognition at the National Indian and Native American CETA Conference.

The college continues to remain in a healthy condition with respect to its bond indenture accounts. The year was ended with all accounts in a solvent condition.

Connors State College continued its educational service under the coordination of the Oklahoma State Regents for Higher Education and governance of the Board of Regents for the Oklahoma A. & M. Colleges to the people of Oklahoma. It is proud of efforts in serving the state and looks forward to its seventy-fifth year as a public instititon of higher education.

EASTERN OKLAHOMA STATE COLLEGE

PRESIDENT JAMES J. MILLER
Wilburton, Oklahoma

During the 1980-81 school year, Eastern Oklahoma State College experienced a stable enrollment with a continued strength in adult enrollment in evening classes.

Eastern participates in providing instruction at the E.T. Dunlap Center for Higher Education in McCurtain County. Eastern has the sole responsibilty for the Child Development program at the Center.

Eastern continues to teach a variety of special offerings, including Emergency Medical Technology, in response to requests from individuals of our surrounding communities.

Eastern was approved to teach extension classes in Talihina, Clayton and McAlester in response to requests from those communities.

Revised courses and curricula were approved in many areas, especially in music, agriculture, engineering, forest technology, and humanities.

Average faculty salaries for nine and ten-month faculty increased to $19,400 in 1980-81.

Renovation was completed on the auditorium of Mitchell Hall with new seating and draperies. Improvements to the Meat Science Laboratory were made, and new equipment for secretarial science was purchased. Enrollment using CRT's and a Hewitt-Packard computer was improved with the addition of several CRT's. A new agriculture barn facility was constructed.

Eastern Oklahoma State College continues to be a service institution for eastern Oklahoma.

EL RENO JUNIOR COLLEGE

PRESIDENT BILL S. COLE

El Reno, Oklahoma

Activities and accomplishments of the El Reno Junior College campus have continued to increase during 1980-81.

Enrollments climbed from 1,015 (fall, 1979) to 1,255 (fall, 1980), resulting in a head count increase of 23.6%.

Curriculum expansion continued, particularly in the areas of occupational and technical education.

The Associate Degree Nursing Program produced the first graduating class, consisting of ten students (May, 1981). Computer Science Technology and Horticulture and Landscaping Technology were implemented in the fall, 1980. Life Enrichment, a program designed to meet the need of older adults returning to college, was begun in the spring semester, 1981. Two new technical programs (Medical Laboratory Technology and Electronics) were conditionally approved by the Oklahoma State Regents for Higher Education for possible implementation in the fall, 1981.

The college's Student Activity Program also had some new facets. Both Men's Baseball and Women's Softball were added to the competitive Athletic Program at ERJC. Also appearing for the first time were the ERJC Entertainers sponsored by the Music Department. This group represented the college with approximately sixty appearances throughout the college service area. Another important addition to the student programs was the Livestock Judging Team. The group resulted from a rapidly developing agriculture curriculum at ERJC.

A very special event occurred on the campus last year. The Annual Oklahoma Association of Community Junior Colleges was hosted in March, 1981, with approximately 650 junior college faculty and staff from throughout the state attending. The President of OACJC during 1980-81 was one of ERJC's outstanding faculty, Dr. Bess Jenkins from the Communicative Arts Division.

During 1980-81 the campus underwent a major transformation. The new facilities include (1) a 16,000 square foot Learning Resources Center, which was completed and dedicated in January, 1981, (2) a community sponsored performing arts building — The Community Cultural and Education Center was occupied in June, 1981, (3) a 170 space parking area was constructed in November and December, 1980 and (4) a Baptist Student Center was completed adjacent to our campus in September, 1980.

Also, construction work for a 15,800 square foot Occupational and Technical Education Building was begun in January, 1981, with scheduled completion for occupancy in the fall, 1981.

Last, but certainly not of least importance, funding for the college's operations reached an all time high. In fact, faculty and staff salary advancement was historical, marking the first time faculty salaries reached regional averages. The college's faculty salary average was over $19,400.

MURRAY STATE COLLEGE

PRESIDENT CLYDE R. KINDELL

Tishomingo, Oklahoma

The major emphasis of Murray State College during this reporting period has been the continued development of the institution into a more comprehensive two-year college commensurate with the assigned functions prescribed by the Oklahoma State Regents for Higher Education:

> To provide a comprehensive two-year post-secondary educational program to serve the needs of residents of the south central Oklahoma counties of Atoka, Bryan, Carter, Coal, Garvin, Johnston, Love, Marshall, Murray, and Pontotoc; to provide an educational program which gives predominant emphasis to technical and occupational education; to provide a program of general education which will enable students to develop the attitudes, knowledge, qualities, and skills necessary for them to be effective as a person, a family member, and a citizen; to provide educational programs of two years or less for students who plan to transfer into baccalaureate and professional programs at senior colleges and universities; to provide a program of education for youth and adults whose previous educational experiences have not prepared them for achievement at the collegiate level; to provide guidance and counseling services for all students; to provide community services to improve the cultural, economic, and social environment of the area served by the college.

During this reporting period, the college graduated its first Gunsmithing class, completed the renovation of the old college barn to facilitate the Veterinary Technology program, completed and dedicated a memorial garden in honor of the Chickasaw Nation, completed a baseball building with funds from the Heritage Conservation and Recreation Service, and completed the acquisition of approximately 131 acres of land to enlarge the campus-based program. The renovation of the physical education building was completed with Capital Improvement funds. And, with the assistance of the Murray State College Foundation, a modern computer center was established.

During the next reporting period, major emphasis will continue to be placed on the improvement of the educational programs, including the full implementation of the Horse Management and Training Program. Renovation is to be initiated and completed on the Library-Science building through the use of Capital Improvement funds. The construction of the Murray-McCool Memory Gardens will be initiated through the solicitation of private funds. And, the upgrading of the residence halls will be undertaken through the installation of an automatic fire alarm system.

NORTHERN OKLAHOMA COLLEGE

PRESIDENT EDWIN E. VINEYARD

Tonkawa, Oklahoma

A second year of declining enrollment was of great concern to the administration and faculty. Considerable time and energy were devoted to improvement of the college's marketing and promotion efforts. Indications now are that this special effort brought a modicum of success.

The academic programs continued to function smoothly and successfully. For the first time, the institution entered into the College Bowl academic competition winning against state colleges of its type and defeating university class competition at the regionals in Topeka for a respectable placing.

The year saw three of the four varsity sports teams ranked in the top ten nationally, although these programs are carefully regulated at N.O.C.

The college continues to be financially solvent in all funds and accounts. This year, the accumulation of reserve funds in dormitory bond indenture accounts grew to exceed the amount of debt, although these bonds do not all mature until 1994. Investments in energy conservation measures, including a solar project, have begun to show savings, and current facilities projects should result in further gains.

Faculty and employee morale has been excellent.

NORTHEASTERN OKLAHOMA A&M COLLEGE

PRESIDENT D. D. CREECH

Miami, Oklahoma

Significant progress was made by Northeastern Oklahoma A&M College during the year 1980-81. A record enrollment of 2,425 FTE was achieved in the fall semester. For the first time in the history of the school the number of women enrolled was greater than the number of men

enrolled. The average age of the student body and the number of part-time students continue to increase. Dormitory occupancy was more than 100% of the designed capacity.

The enrollment in Computer Science Technology continued to increase, requiring the addition of a computer science instructor at mid-term. A number of disciplines other than computer science have purchased and installed microcomputers and are making a general knowledge of the computer operation available to their students.

A campus-wide staff development coordinating committee was instituted, and several training programs were given during the year. The emphasis of the staff development committee was on improving the quality of instruction. Faculty and staff personnel have updated their skills by attending seminars, using sabbatical leaves, enrolling in summer school, and working in related industry-business environments during the summer months.

Capital Improvement Funds were received and used for the renovation of an old auditorium building on campus into a vocal music building. This renovation gives the college adequate room for the vocal and instrumental music programs.

A word processing system for the Business Division, a computer graphic system for the Drafting Department, and new equipment for the woodshop, the farm shop, and various academic divisions were purchased during the year. The quality of the equipment for instructional purposes on the campus was increased considerably during the year.

An energy audit was made on ten of the major buildings on the campus. Applications were completed for federal participation in a major retrofit of these buildings for the conservation of energy. This was the first year of a projected three-year plan for reducing the consumption of energy on the campus.

The Golden Norse football team was undefeated during the year and was ranked No. 1 in the nation by the National Junior College Athletic Association.

OSCAR ROSE JUNIOR COLLEGE

PRESIDENT JOE PACKNETT

Midwest City, Oklahoma

Oscar Rose Junior College staff, having completed an extensive review of all phases of operation during the preceding year and having consulted the Oklahoma State Regents' *Planning for the 80's*, began implementation of plans based on these sources.

Oscar Rose Junior College became the first institution in the

Oklahoma City metropolitan area to offer courses by Cable Television; the first courses were offered on the Midwest City Cablevision network during Spring 1981.

There are nine faculty resignations; two faculty moved to administrative positions, and the addition of seven to the teaching faculty brought the full-time faculty to 150 for the fall semester as compared to 154 a year ago. Fourteen staff members taught part-time, and there were 149 supplemental faculty members employed, making the total teaching staff 313. The combined teaching loads of all faculty resulted in a full-time teaching equivalency of 215.1 for the two academic semesters as compared to 200.4 for fiscal year 1980. Each FTE instructor produced 663.SCH during the academic year.

New programs in Consumer Economics, Quality Control, Dental Assisting, Nursing, Dental Laboratory Technology, Fashion Merchandising, and Public Administration were implemented. Fourteen students sat for their Nursing Board exams; an unofficial report indicates that all passed. Work with Tinker Air Force Base and Oklahoma City Postal employees produced requests for programs in Postal Management and Purchasing and Contracting; in addition, a Country/Western Music program was submitted.

Oscar Rose Junior College continues to progress toward completion of campus facilities. During this fiscal year, construction of the Engineering Technology Building, which will complete the main campus quadrangle, began; and Tom Steed Career Development Center was completed; Master Plan Revision for fiscal year 1981 was submitted to the State Regents; the automated energy management project began, and numerous renovation projects were completed.

New construction projects approved by the State Regents include a Child Development Laboratory Center; expansion of the Maintenance Building; and expansion of the Gymnasium, which will add new classrooms, dressing facilities, and an indoor swimming pool. Other projects approved by Oscar Rose Regents but not yet approved by the State Regents are an addition to the baseball field, a second floor addition to the Student Center, an auditorium, patio enclosures for three buildings, a free-standing greenhouse, and additional facilities for baseball and track.

Of a variety of other important accomplishments, a few should be mentioned: computer assisted instruction was implemented in Word Processing and Math, and acquisition of Hewlett Packard computers has greatly increased the efficiency of the Computer Center. The Oscar Rose Board of Regents received a Distingished Service Award from the Association of Governing Boards of Universities and Colleges, and the

recommended faculty salary increase was implemented. An increased number of college, community, and state events were held on campus, a large portion of them made possible by the new Tom Steed Center facilities.

Enrollments and credit hour production follow: Summer 1980, 4,606 collegiate enrollments totaling 20,645 credit hours; Fall 1980, 8,753 enrollments totaling 74,100 credit hours; Spring 1981, 8,548 enrollments totaling 68,388 credit hours. Totals for the full year were 21,907 collegiate enrollments totaling 158,133 credit hours, with an additional 16,049 noncollegiate enrollments. Academic year events ended with 539 graduates hearing Governor George Nigh's commencement address.

SEMINOLE JUNIOR COLLEGE

PRESIDENT ELMER TANNER

Seminole, Oklahoma

During the fiscal year 1980-81, Seminole Junior College enjoyed another banner year completing its twelfth year after separating from the high school in 1969. Enrollment is continuing stable and a new program, Banking Technology, was added during the year.

The college started Phase I of the addition to the Physical Education Building and Phase II will be completed during the 1981-82 school year.

Under Title III, the school received a grant for the administrators and division heads to make a year long study in Establishing New Institutional Goals for the college from 1981 to 1986. The faculty held monthly meetings, with some of the Oklahoma State University staff as consultants. Much has been accomplished through these meetings and will assist the college in developing its resources to the fullest.

In the area of activities, the men's basketball team, women's basketball team and men's baseball team all won the Bi-State Conference with the men's basketball team advancing to the finals of the Region II play-offs and the men's baseball team going to the Junior College World Series and finishing second.

The emphasis for the school year 1981-82 is the development of this institution into a more comprehensive two-year college.

The Board of Regents, administration, faculty and student body are appreciative of the Oklahoma State Legislature in their support for higher education.

SOUTH OKLAHOMA CITY JUNIOR COLLEGE

PRESIDENT DALE L. GIBSON

Oklahoma City, Oklahoma

The year 1980-81 was another banner year for South Oklahoma City Junior College with continued growth in students, finances, and construction:

1) Student growth was reflected in an eleven percent increase in FTE and a sixteen percent increase in headcount.

— Technical programs showed a 556 increase in headcount, a twenty-eight percent increase over the previous year.

— Community Services served 21,671 persons, a ten percent increase over the previous year.

— A new program — Data Processing — had an enrollment that taxed facilities to the limit.

2) Financial growth was achieved through the Oklahoma State Legislature and Oklahoma State Regents for Higher Education which allowed for sizable faculty and staff increases and enabled the institution to meet the $21,700 regional average for faculty salaries.

3) Construction growth continued through work on the Phase III Humanities and Fine Arts facility. Recent notification of additional allocations from the State Regents will possibly complete the building this year.

A major accomplishment that took a great deal of commitment and time was the successful completion of an Institutional Self-study in anticipation of a visit from the North Central Association evaluation team in November.

Student services were enhanced through two other projects:

— a Food Service Advisory Committee was established to evaluate food service and the student service area which resulted in timely improvements.

— a check-cashing system was implemented in the book store which reduced long lines and waiting periods.

Serving the needs of the community also continued to be a high priority of the college illustrated by solid involvement with the Metropolitan Library System and the Oklahoma City Public Schools in the true development of a community-based educational system within Oklahoma. A similar program with the Moore Public Schools is also being developed. In addition, a joint venture between South Oklahoma City's Chamber of Commerce, Art Association, and Junior College created a very

successful art festival on Labor Day weekend attended by over 80,000 people.

The college looks forward to an even greater year during 1981-82. Plans are under way for a year of real self-appraisal and evaluation beginning with the North Central visit in the fall, continuing with departmental evaluations throughout the institution, and culminating with evaluation of the instructional delivery system which will begin in the spring of 1982. Thus, South Oklahoma City Junior College will celebrate its tenth anniversary by illustrating that it is on target in accomplishing the goals and objectives set forth in the Master Plan.

TULSA JUNIOR COLLEGE
PRESIDENT ALFRED M. PHILIPS
Tulsa, Oklahoma

Tulsa Junior College began its journey through the 1980's by growing and expanding with the same fervor as it did during the 1970's. The combined enrollment of on the Metro Campus and the Northeast Campus in the fall of 1980 was over 12,000 students. Enrollment in non-credit Special Programs averaged 2,750 students per semester.

During the 1980-81 school year, the Northeast Campus, which began operations in the fall of 1978, opened an extension to the Academic Building, and the enrollment on that campus grew to 2,121.

There were 50 technical-occupational programs offered last year, with nearly forty percent of the total student body indicating their major to be in these one and two-year career programs.

The College expanded its offering of telecourses — credit classes via television. Seven telecourses were offered during the fall semester, nine were offered during the spring semester, with six being offered during the summer semester. Total enrollment for three semesters was 1,785.

The Computer Assisted Instruction (CAI) system remains a popular support service. Two new programs in Sociology and Psychology were added to the system last year, and revisions and modifications were made in the programs for English, Fire Protection Technology, Government, Literature, Logic, and Report Writing Style. Students using the CAI system during the 1980-81 school year numbered over 4,000 each semester.

The Diagnostic and Prescriptive Learning Center served 2,434 students this last year in 3,941 individual conference sessions. Among other student services, the College Placement Services Office served some 2,377 students on both the Metro and Northeast campuses, and the Career Center at the Metro Campus assisted 2,340 students. Other Metro

Campus Counseling Center services include administering 2,890 individual tests, excluding cable and TV courses testing.

The Northeast Campus Counseling Center, which is designated as an official General Educational Development (GED) Testing Center, administered GED tests to 110 students. This center also administered 613 other student tests.

The College's Student Financial Aid Office assisted 1,036 students with Basic Educational Opportunity Grants (BEOG), and provided scholarships and loans from other sources to 1,223 students. Persons receiving Vocational Rehabilitation support numbered 573, and disabled veterans receiving support number 26.

Tulsa Junior College looks forward to a very successful twelfth year of operation.

WESTERN OKLAHOMA STATE COLLEGE

PRESIDENT W. C. BURRIS

Altus, Oklahoma

During the 1980-81 fiscal year, Western Oklahoma State College continued to pursue its central mission of providing the best possible education to the people of western and southwestern Oklahoma.

Enrollment figures for both the Fall 1980 and Spring 1981 reached all-time highs of 1,851 and 1,947 respectively. The Fall registration was six percent above the Fall of 1979, and the Spring registration was seven percent above the Spring of 1980.

A major emphasis this year was on the final preparations for the review for re-accreditation by the North Central Association. The Self-Study was completed and submitted in February, and the accreditation team made its official visit on April 7-9 to evaluate the progress made by WOSC since its first NCA accreditation in 1976.

WOSC was recommended for a continued unconditional accreditation, to be reviewed in seven years. The NCA team was complimentary of the quality of instruction at WOSC and emphasized the competence of the faculty and staff. The college was complimented for well-informed and supportive Regents at both the local and state levels, for outstanding community support, and for its excellent facilities.

Construction was begun this fiscal year on Phase III, Section I, Unit 2, Technical Education Health Careers Wing and Phase III, Section II, Fine Arts Center Addition. The Health Careers Wing was scheduled for occupation in Summer, 1981, and the Fine Arts Center was scheduled for occupation for the 1981 Fall Semester.

WOSC added a new associate degree program in nursing in 1980-81 and employed a Director of Nursing to construct and organize a curriculum. The curriculum, developed in compliance with the criteria set up by the National League for Nursing for associate degree nursing programs, was approved by the WOSC Board of Regents, the Oklahoma State Regents for Higher Education, and the Oklahoma State Board of Nurse Registration. The first class of 20 nursing students was scheduled to be accepted in the 1981 Fall Semester.

Two significant additions were made in the Learning Resources Center. An assistant librarian was employed, and a library security system was added in an attempt to better protect library resources.

Enrollment procedures became more streamlined in 1980-81 with further utilization of the college's computer system.

With the end of the fiscal year, 1980-81, WOSC completed its first decade as a member of The Oklahoma State Sytem of Higher Education.

SAYRE JUNIOR COLLEGE

PRESIDENT HARRY PATTERSON

Sayre, Oklahoma

In the forty-second year of service to the community, Sayre Junior College experienced a substantial growth in enrollment. Although SJC is a small college located in a sparsely populated area, it extends the opportunity for educational and recreational growth to those individuals seeking a college education as well as a variety of individuals seeking specific job skills, knowledge and skills for more effective life styles, and opportunities for growth in health, recreational and hobby interests.

The Sayre Junior College student population includes a large number of women and students beyond age 22 who are pursuing educational objectives after full-time employment or family responsibilities. In addition, SJC continues to offer a variety of courses of service to the community. A new service class this year in Oil and Gas Leasing attracted 430 enrollees ranging in age from 18 to 80.

Although a majority of SJC students are completing the first two years of a four-year degree program and transfer very successfully to other institutions of higher education, SJC continues to offer Associate in Technology degrees in business and health careers. This year the SJC representative for Outstanding Medical Laboratory Technical Student was selected as the national Outstanding MLT Student by the American Medical Technologist, a national registry for clinical laboratory personnel. The SJC Health Careers Club won a series of books for the college library for outstanding promotional display of health careers.

Although most SJC students commute from the surrounding community, the college continues to offer dormitory services for those students needing this service, and active student government and intramural activities continue. In addition, the college provides facilities and services for police educational programs sponsored by the Council on Law Enforcement Education and Training. The college also continues to furnish facilities for pre-school physical and speech therapy in cooperation with the Regional Service Center and Sayre Public Schools. The forty-second college year was a varied and productive year with plans for continued and improved services to the community for the coming year.

BARTLESVILLE WESLEYAN COLLEGE

PRESIDENT JOHN M. SNOOK

Bartlesville, Oklahoma

The Wesleyan Church founded Bartlesville Wesleyan College in the early 1900's in order to provide higher education within a Christian environment for Wesleyan youth. In 1972, a decision was made that Bartlesville Wesleyan College become a four-year liberal arts college, and the Oklahoma State Regents for Higher Education so accredited Bartlesville Wesleyan College. A second goal, certification to train elementary teachers, was achieved in May 1975 after an examination team from the Board of Education had recommended this action to the Professional Standards Board and the State Board of Education. Full regional accreditation by the North Central Association was granted in 1977.

The institutional perspectives of Bartlesville Wesleyan College have grown out of a philosophy of education rooted in a distinctively Christian understanding of life, and nurtured by the conviction that the revelation of divine love in Jesus Christ provides the most adequate basis for the investigation of the meaning of all facts and events of life. These perspectives rest upon the premise that the realization of an individual's fullest potential requires a proper relationship with God and with his fellowman. Bartlesville Wesleyan College, therefore, seeks the education of the whole person. This involves the enlightenment of the mind through the acquisition of factual knowledge, as well as the transformation of the individual, morally and spiritually, through an encounter with God in Christ.

The college continues to make significant progress in academic planning, student enrollment and financial stability.

Bartlesville Wesleyan's Board of Trustees is made up of individuals from various geographical regions of the United States. The Board of Trustees authorized the administration of Bartlesville Wesleyan to offer a

major in physical education and also to develop a program of nursing. The college continues to develop a strong program in business. These three areas of concentration provide for our students more academic offerings for upper level programs, which gives the college a better opportunity in areas of retention.

Bartlesville Wesleyan College is aggressive and very active in its recruitment program as it must be in a time of decreasing numbers of prospective students in the traditional college-age groups. Student population increased this year over last year's statistics. The college has shown an increase every year since becoming a four-year liberal arts college in 1972, with an increase from 260 in 1972 to 821 this year. The recruitment program is enhanced through a group of students that represents the college in concerts in Wesleyan churches, public schools and civic organizations. They are trained to help the Admissions Office in student procurement.

Financially, the college remains sound Again this year the college closed its books with an operational budget that was met through the fund programs of the college. The college's three-year old Gap Scholarshare fund raising program continues to help the college with its funds. It is designed to pick up the difference between what the student pays to attend BWC and what it actually costs to provide the educational program.

BETHANY NAZARENE COLLEGE

PRESIDENT JOHN ALLAN KNIGHT

Bethany, Oklahoma

Bethany Nazarene College derives its academic and religious identity as the designated institution of liberal arts for the Church of the Nazarene, South Central Region. However, the college is nonsectarian, with more than 30 religious affiliations represented among its student body.

Enrollment for Fall, 1981, is 1,364: 607 men, and 757 women. Significant developments in 1980-81 include the following:

1. Bethany Nazarene College has been selected by Multimedia Cablevision, Inc. as the site for a cable television studio. According to the franchise agreement, Multimedia furnishes the technical equipment while the college provides the physical facility and the personnel. The purposes are (1) to train students interested in the broadcast field and (2) to provide a community access facility for Bethany viewers.

2. The baccalaureate program in Nursing, a major addition to the academic offerings in 1979-80, is progressing on schedule with 78

students enrolled in Fall, 1981. First graduating class will be in the Spring, 1982.

3. A Title III federal grant ($835,000 for three years), now in its second year, is providing significant help in Institutional Planning and Management, Career Planning and Placement, Instructional Improvement, and Curriculum Media Development. Also, a Title IV grant ($96,000 for four years) is being used for a program of assistance to students through counseling, enhancement of learning skills, and tutorial help in a variety of ways.

4. A new building for Business and Home Economics was occupied in January, 1981, comprising 32,000 square feet on two floors, including a classroom-auditorium. Cost of the building was approximately $1.6 million, including furnishings and concrete parking areas with lighting. These facilities are paid for.

5. The new graduate Business program, leading to the Master of Science in Management degree with emphasis on small business, is eliciting an encouraging degree of interest. Thirty-three students are involved in this second year of the program.

6. Institutional planning is following a pattern outlined by the college president, based upon careful analysis of past data and providing for projections on a five-year revolving basis of all aspects of college operations.

7. For the ninth consecutive year, the college has maintained a favorable income/expenditure ratio. Current prospects are for continuance of this financial condition in 1981-82. Development income set a new all-time high for the second straight year.

8. Of more than passing interest to campus personnel and alumni is the present status of the men's basketball team as defending national champions of the National Association of Intercollegiate Athletics.

MIDWEST CHRISTIAN COLLEGE

INTERIM PRESIDENT WARREN WOODROME

Oklahoma City, Oklahoma

No report received.

OKLAHOMA BAPTIST UNIVERSITY

PRESIDENT E. EUGENE HALL

Shawnee, Oklahoma

In the past year, Oklahoma Baptist University has renewed its

commitment to offer the finest in quality higher education while maintaining the Christian distinctions of its Southern Baptist heritage. The university's foundations have been further buttressed by wise academic and administrative reorganization, as well as with positive, forward steps in developing OBU's physical plant.

OBU had a non-duplicated head-count in student enrollment of 1,776 for the 1980-81 academic year. 70% of these were Oklahoma residents. The remaining 30% came from all over North America and 21 different countries. Oklahoma Baptist University conferred 242 baccalaureate degrees from 75 areas of concentration in 33 departments of instruction.

Financial aid for OBU students is important to their scholastic success. During the most recent year for which comprehensive data are available, 1979-1980, 93.1% of OBU students received $826,225 in academic scholarships, $441,477 in loans, $1,137,432 through grants, and $298,723 through student campus employment and College Work/Study. 1,425 non-duplicated recipients received an average award of $1,897, totalling $2,703,857 for the year.

The academic departments of OBU were reorganized to offer students a more complete and comprehensive education in their respective areas of study. The university now houses the Warren K. Angell College of Fine Arts, the College of Arts and Sciences, the School of Nursing, the School of Business and Administration, and the School of Christian Service.

1980-1981 saw the initiation of the Herschel H. and Frances J. Hobbs Lectures in Baptist Faith and Heritage. Named for the long-time pastor of Oklahoma City's First Baptist Church and his wife, the lectures were endowed by university benefactors who are friends of the Hobbses. Dr. Hobbs presented the inaugural lectures in the fall of 1980 and Dr. William Hendricks, Professor of Philosophy, Golden Gate Baptist Theological Seminary, continued the series in the spring.

A new structure for OBU's Student Development program emerged consisting of three specific program areas each headed by an associate dean. The Associate Dean for Counseling and University Chaplain coordinates religious life and activities on campus. The Associate Dean for Student Activities and University Center Director oversees general student activities and the operation of the University Center and coordinates the utilization of university facilities for visiting groups. The Associate Dean for Residential Life supervises student housing and coordinates dormitory-related activities.

Oklahoma Baptist University's physical plant experienced rejuvenation and growth during 1980-81. Renovation of WMU and Brotherhood Dormitories was completed at a cost of over $3.5 million. Dedication services for the new life in these dormitories were held during Homecoming exercises. New typesetting equipment was installed for OBU journalism students which is comparable to that used by copy editors of major metropolitan daily newspapers. Two Tulsa families donated funds to complete the Raley Chapel pipe organ. The language lab in Shawnee Hall was remodeled, incorporating the most modern electronic teaching and learning aids. Campus lighting was improved by installing outdoor lights which illuminate the paths between the academic buildings and campus residences. Ford Music Hall was refurbished using a grant from relatives and friends of the Ford family. Long-awaited new parking lots were prepared for faculty members and residents of men's and women's housing. A new computer laboratory was installed in the Mabee Learning Center, provided from funds donated by Tulsa friends of the university. Other remodeling and improvements projects were begun and/or completed.

Current concerns of the university's administration include growth in enrollment; the development of an expanded scholarship program for Oklahoma young people who attend OBU; attracting endowment funds for the School of Christian Service and for Faculty Development for the entire university; and continuing the effort to complete the campus by 1985, OBU's Diamond Jubilee.

OKLAHOMA CHRISTIAN COLLEGE

PRESIDENT J. TERRY JOHNSON

Oklahoma City, Oklahoma

The 1980-81 academic year at Oklahoma Christian College was highlighted by many special events. The institution continues to grow in numbers and academic stature.

An enrollment of 1,657 was a seventh consecutive record for the number of students choosing to attend the institution. Recent years have brought steady growth and improvement to Oklahoma Christian. Since 1975, the College's operating budget and net worth have doubled; the endowment has increased from $1.6 million to over $9.0 million; and nine major buildings have been constructed.

Financially, the institution remains sound. An increasing endowment promises an ever-growing resource for operating support. Gift income since 1975 has increased dramatically. A source of funding which is now coming to fruition is the alumni association of the college.

The Business Division is the largest academic department on

campus. Presently, 25% of the students have chosen a business-related major at Oklahoma Christian College. This surging enrollment mandated the construction of a new business building made possible through a generous Oklahoma City business community. Completion for this facility was realized during this academic year.

Certainly a high point for the 1980-81 year was the third annual Gala Week, a program begun in 1978 to celebrate achievement in the arts and communications fields. News commentator Douglas Edwards, wildlife artist Ray Harm, and actor James Whitmore were present to give stature to this event. A fourth Gala Week is planned for 1981-82.

The College continues under the leadership of President J. Terry Johnson, Chancellor James O. Baird, Executive Vice President R. Stafford North, and Vice President Guy J. Ross, Jr.

OKLAHOMA CITY UNIVERSITY

PRESIDENT JERALD C. WALKER

Oklahoma City, Oklahoma

Oklahoma City University was Methodist-established in 1904, and serves in the dual role of Oklahoma City's university and the only United Methodist-related university in Oklahoma.

The university offers degree of Bachelor of Arts, Bachelor of Science, Master of Arts in Teaching, Master of Criminal Justice Administration and Master of Liberal Arts through the College of Arts and Sciences; Bachelor of Science in Business, Master of Business Administration, and Master of Science in Accounting through the School of Management and Business Sciences; Bachelor of Music, Bachelor of Performing Arts, Master of Music, and Master of Performing Arts through the School of Music and Performing Arts; Bachelor of Religion and Master of Religion through the School of Religion and Church Vocations; and Juris Doctor through the School of Law.

Oklahoma City University's enrollment of 3,044 for fall, 1981, was the highest fall enrollment in the history of the institution, representing an increase of 8.1% over fall 1980 and 17.9% over the fall of 1979. The enrollment of the freshman class has increased 22.5% compared to a year ago, and graduate and professional enrollment is up 14% compared to 1980-81. The Law School continues to achieve progress in attracting qualified students with an enrollment of 545 in the fall of 1981. The total enrollment for fall of 1981 reflects the university's ability to attract and retain qualified students at the undergraduate, graduate and professional levels.

Oklahoma City University has continued to build a strong base of

financial support. Over the past two years (1979-1981), the university's annual total fund-raising from all sources has increased from $4.6 million to $10.2 million in gifts, grants and pledges.

Equally important to the increase itself are the sources of these funds. The university's United Methodist constituency provided both unrestricted and endowment gifts in excess of $4 million during this two year period. At the same time, the Oklahoma City business community participated in a corporate campaign which, in the spring and summer of 1980, raised an additional $2.3 million for the university. Parent and alumni support also increased significantly during the 1979-80 and 1980-81 academic years. In 1979-80, alumni support increased 137 percent and alumni participation increased 14 percent. The university received a coveted U.S. Steel Foundation Award for Improvement in Alumni Support based on the 1979-80 figures.

The athletic department has been expanded to provide a full program in inter-collegiate competition in basketball, baseball, tennis, golf, track, and cross country for men and basketball, softball, volleyball, and tennis for women. The men's basketball team won the Midwestern City Conference Tournament last year.

Several new academic programs were instituted during this year including computer science, Native American Art, dance, photography, and the Master of Liberal Arts degree. The new School of Religion and Church Vocations was opened in the fall of 1981 and the new St. Anthony School of Nursing will begin Spring 1982.

During 1982, the university will begin construction on the new $3.2 million Noble Center for Competitive Enterprise, which will be the new location for the School of Management and Business Sciences.

The university continues to serve as a major cultural and intellectual center for the city and state, providing Oklahoma City University productions in drama, theater, dance, children's theater, opera, musical theater, and facilities for Lyric Theatre, Ballet Oklahoma, Chamber Music Series, Junior Symphony and other civic organizations. During the year the university sponsored a comprehensive series of lectures and consultations on economics, religion, arts, politics, ethics, and government.

OKLAHOMA MI ONARY BAPTIST COLLEGE, INSTITUTE & SEMINARY

PRESIDENT R. C. PERRITT

Marlow, Oklahoma

Another year has become history, and some accomplishments have been made in the development of the college. These serve as an

encouragement and a challenge for us to make the current year even better.

According to the librarian's records, the college is making satisfactory progress in attaining the goals of the "five-year library plan." More funds were earmarked in the budget for the purchase of books than any other year. In addition, there have been more special donations of books and money for the library than any previous 12-month period. Among the special contributions has been a good increase in memorial gifts. At the rate of progress last year the library will exceed expectations during the five years.

There has been a good upward swing in contributions that have alleviated financial pressures. The college's community of supporters has grown, and the size of donations on the average likewise has increased. Plans have been made during the year to put some special fund-raising efforts to work in the new year and succeeding years.

One area that is important to the institution is that of "fellowships" or special meetings that draw visitors to the campus. The past year has witnessed these events reach the highest numbers in attendance in their history. This not only manifests the interest of the college community and public but also provides opportunity to generate more enthusiasm and interest in the school.

Although the institution is small, this year several important, progressive strides have been taken in laying a stronger foundation for the greatest results even beyond the next two years.

ORAL ROBERTS UNIVERSITY

PRESIDENT ORAL ROBERTS

Tulsa, Oklahoma

In its sixteenth year, Oral Roberts University continued to strengthen its undergraduate and graduate programs with additions to the faculty, improvements in facilities, and its largest-ever student enrollment.

When classes began in August 1980, ORU had a total enrollment of 4,006 — 3,500 undergraduates and 506 graduate students. Reflected in these numbers was the need to add new areas of study and new degrees.

The natural science department initiated a medical technologist program, with the first class of B.C.L.S. students scheduled to graduate in 1984.

Plans for three new degree programs were announced in February 1981: a master's degree in education (with a concentration on reading and adult literacy), and doctoral programs in ministry and biomedical science.

The announcement of the education degree signaled the opening of ORU's seventh graduate school — the School of Education — which joins the graduate schools of medicine, dentistry, nursing, law, business, and theology.

The doctor of ministry program began in the fall of 1981, while the doctor of biomedical science program is planned to begin in 1983.

As announced in the 1979-80 report, the health care administration program of the School of Business began in the fall of 1980. The program received an additional boost with the dedication of the Jonathan B. Cardone Memorial Health Care Administration Library, a collection of books donated by the family of an ORU business administration graduate.

The City of Faith Medical and Research Center, located just south of the ORU campus, began accepting patients when its clinic opened on June 1. The hospital portion of the complex opened November 1, 1981.

Existing and new programs earned seals of approval from accrediting agencies this past year. The O.W. Coburn School of Law received provisional accreditation from the American Bar Association in August 1981. The doctor of ministry program was approved by the North Central Association of Colleges and Schools on June 22, 1981. The School of Education's master's program was approved by the State Regents in August 1981.

The School of Dentistry was officially dedicated and named for a member of ORU's founding Board of Regents: Michael Cardone, Sr., on May 2, 1981.

Oral Roberts University looks back with pride at the 1980-81 academic year and, with God's help, anticipates even greater accomplishments in the years ahead.

PHILLIPS UNIVERSITY

PRESIDENT JOE R. JONES

Enid, Oklahoma

The second year of Dr. Joe R. Jones' presidency at Phillips University was marked by steady progress toward the revitalization of the total university program.

The new development program raised $2,415,354 in capital and operational gifts. The Enid-Phillips campaign, under the direction of Dr. Bernard Loposer, vice president of development and Dr. Robert Shuttee, Enid physician and chairman of the Enid-Phillips Steering Committee, exceeded its goal of $250,000.

This year Phillips has placed renewed emphasis in the field of proposal writing. Patrick Hundley, director of development, was responsible for bringing a total of $756,582 to the university from proposals to corporations and foundations.

The Share Phillips University's Renewal (SPUR) campaign was launched by the Christian Church (Disciples of Christ) in Oklahoma, Arkansas, Kansas, Nebraska, Colorado and Wyoming to raise $2 million to reduce the university's accumulated operational deficits. Conceived and supervised by Ralph Glenn, executive assistant to the president, SPUR has been well received by the members of the church and represents a turning point for Phillips.

The $975,000 renovation of Earl Butts Residence Hall for men was completed in the summer. The project was made possible by grants and gifts designated specifically for remodeling the building.

The newly-organized admission program continued to work efficiently, reaching nearly 7,000 more prospective students than the previous year.

The new alumni director, Alton Beaver, a 1961 Phillips graduate, continues to extend this completely rejuvenated alumni program.

Phillips internal academic program development included the appointment of Dr. Robert Botkin, former dean of the College of Arts and Sciences at East Tennessee State University, as vice president of academic affairs. Dr. W. Clark Gilpin was appointed associate dean to the Graduate Seminary with responsibility for the faculty and academic affairs.

Recognizing the importance of career development to students, the university trustees authorized the creation of the career development office. Robert Richert serves as director of the new program.

Competence in the classroom remains the highest priority for Phillips University faculty. More than $9,000 was appropriated to support special faculty research projects toward that goal.

Phillips University is communicating with greater intensity and extension than it has in recent years. The image and message of Phillips have achieved definiteness, clarity, and consistency. Phillips has a proud tradition and a viable mission.

THE UNIVERSITY OF TULSA

PRESIDENT J. PASCHAL TWYMAN

Tulsa, Oklahoma

During this reporting period The University of Tulsa's position as one of the nation's major independent research and teaching institutions

appears more apparent than ever before. With endowment and trust funds nearing $150 million, a library with more than 1.2 million volumes, a campus valued at $59 million and a constantly rising overall student composite score on SAT, ACT and GPA scales, we are extremely fortunate.

Academic highlights during the period included:

(1) The Honors Program has been extended to 70 particularly gifted students and plans are being made to convert a spacious house on campus to an Honors House to provide a unique and exceptional living environment for these students.

(2) An endowed chair in petroleum engineering was established and the first recipient was Dr. Kermit Brown, an international authority on the subject. Incidentally, Dr. Brown is the featured speaker at the society of Professional Engineers Conference in Peking, China.

(3) Dr. Thomas Staley, Trustees Professor of Modern Literature and noted world-wide authority on the works of James Joyce, was appointed Dean of the College of Arts and Sciences.

(4) Frank K. Walwer, formerly associate dean at Columbia University Law School, assumed this law school's deanship and seven full-time professors were selected to join the faculty.

(5) Dr. Robert J. Monroe, formerly associate dean at the University of Missouri, was appointed Dean of the College of Business Administration.

(6) The College of Nursing was fully reaccredited by the American Nursing Accreditation Association.

(7) The College of Law was fully reaccredited by the American Bar Association.

Other highlights included:

(1) In an era when college enrollment is increasingly sensitive to external forces, The University of Tulsa remains relatively stable. For fall, 1980, 6,265 undergraduate and graduate students enrolled, exceeding the 10-year mean by 21 students. When comparing grade point averages and class quarterly rankings of entering freshmen and transfer students for 1974, some 45 percent of the group came from the top quartile of their class, while for fall, 1980, the percentage had increased to 58 percent from the top quartile of the class.

(2) The University of Tulsa was awarded more than $2.6 million for research from private and government sources. This is an increase

over last year's all time high of more than $110,000, with proposals coming from more than 27 percent of the total faculty.

(3) Internal funded research awards were made to 47 faculty members, 16 student research grants were awarded, 10 travel grants were awarded and four equipment grants were provided by the university.

(4) Approximately 5,000 student financial aid awards were made totaling just under $9 million. Senior students had access to twice as many student aid dollars than were available during their freshman year. During the past three years, a 100 percent increase in assistance provided to needy and talented students has been realized to assure continued access to the university.

(5) Physical plant improvements include: completion of the Holmes Student Center, expansion of the heating and air conditioning systems at the Central Plant Facility, completion of the John Rogers College of Law expansion, major repairs to Skelly Stadium, site preparation for the new College of Engineering and Physical Sciences complex, the purchase of additional apartment complexes to be used as student housing, and the purchase of a new computer system round out the major physical plant changes.

Community oriented highlights included:

(1) KWGS, the university's National Public Radio station, measured an increase of 75 percent in listener audience with the expansion of their program offerings to include performances by the New York City Metropolitan Opera, The Chicago Symphony Orchestra and with NPR programs, "Morning Edition" and "All Things Considered."

(2) The Center for Educational Research and Evaluation is into its year of service to the community and has gained an enviable reputation among educators in the area by providing free and minimal-cost consultative and evaluative services.

(3) The Mary K. Chapman Center for Communicative Disorders has been providing diagnostic and therapeutic services to the community for a number of years. This past year more than 3,000 patients were involved in the program. A vast majority of these individuals received free speech and hearing evaluations or related diagnostic services.

(4) The TU-STOIA Learning Center worked with more than 150 children with learning disabilities. The service is free or at minimal cost to the client.

(5) From providing CPA's recertification opportunities to delivering programs for geologists, engineers and others in the petroleum industry, the continuing education division has experienced dramatic growth and expansion. The division also provided seminars for lawyers and set up "Saturday Seminars" for community business managers and has had it's finest year in delivering services and non-credit programs throughut the region and nation.

In summary, this has been a banner year for the University of Tulsa.

BACONE COLLEGE
PRESIDENT PAUL V. MOORE
Muskogee, Oklahoma

Bacone College has entered its second century of meeting the educational needs of American Indians.

Called upon, by its Mission Statement, to meet "the diverse needs of the Native American Indian in a multicultural setting," the trustees, administrative staff and faculty continue its long range planning process in order to build upon the evaluation and goal establishment which took place during its centennial celebration in 1980.

Bacone College strives to offer quality educational programs through a personalized approach which is designed to enrich career and personal development. It tries to do this in a Christian climate. The college attempts to meet the needs of students who range from the gifted and talented student to those who are educationally and culturally deprived. By working with a low student/faculty ratio, Bacone is able to meet each student at his/her own level and move each one along toward self defined goals.

Like most other independent, church-related colleges, Bacone works with limited resources as it continues to review its goals and objectives and to modify its programs so they are relevant to the wide constituency of the college while remaining true to its history and its heritage.

HILLSDALE FREE WILL BAPTIST COLLEGE
PRESIDENT DON ELKINS
Moore, Oklahoma

The 1980-81 school year at Hillsdale Free Will Baptist College was a good year for Free Will Baptist Education. Men and women from ten states and five foreign countries came to the college for a quality education in a Christian context. Ministerial, missionary and lay students were challenged with the gospel mission and were equipped to assume their roles in God's eternal plan.

A fund raising campaign was launched to asphalt the streets, drives and parking lots on campus. Also, many pine trees were planted to beautify the campus.

ST. GREGORY'S COLLEGE

PRESIDENT MICHAEL ROETHLER

Shawnee, Oklahoma

St. Gregory's College opened its 1980 Fall Semester with an enrollment of 326 students. This included 197 freshmen, 123 sophomores, and 6 special students. Upon completion of the academic year, the college conferred the Associate Degree upon 72 graduates as follows: Associate of Arts, 10; Associate in Science, 50; Associate in Business Administration, 12.

Academically, the strength of the college supported the success of its program: the excellence of its faculty, the quality of its students, and the generally fine condition of the physical plant. At the same time, a special emphasis was placed upon improvement in the following areas: faculty development, academic standards, and learning environments. Considerable attention was given to retention as the college attempted to increase the quality of its academic program.

The college's Community Services Program once again established new records as it served the non-traditional educational needs of the community. It successfully generated and directed 154 short courses and special events with a total of 3,217 participants. Moreover, it coordinated facilities usage for 126 non-profit groups, serving 10,100 participants. The first full year of operation of the Mabee-Gerrer Museum enabled the college to continue its service to the citizens of Shawnee.

Approximately 50,000 visitors viewed this museum consisting of 500 major oil paintings and 7,000 artifacts.

The college completed its capital campaign as it attempted to attract funding for a Recreation and Child Development Center. This $2 million project is designed to serve three basic components of the college community: its Early Childhood Development Program, the recreational needs of the student body, and activities of the surrounding community. Construction will begin this summer, with completion scheduled for early 1982.

In summary, 1980-1981 was a year of continued evaluation and growth as the faculty and students addressed themselves to the objectives of St. Gregory's College.

SPARTAN SCHOOL OF AERONAUTICS

PRESIDENT VERNON M. SETTERHOLM

Tulsa, Oklahoma

Spartan School of Aeronautics has had another year of growth —more moderate than the last. There are now more than 2,200 full-time students. Associate in Applied Science Degrees will be awarded to 110 students in calendar year 1981 compared with 70 last year, and the number of candidates is rising substantially.

Approximately two years ago the school undertook development of new programs for remedial mathematics and physics for entering students. There has been excellent success with these programs which are so vital to success in technical education. Curricula are being upgraded on an ongoing basis. Instructional methods training has become a continuing institutional improvement activity. Library holdings and services were expanded significantly during the year.

A classroom building, Turner Hall, was added to the facilities in May and shop and laboratory facilities have been expanded to accommodate the larger student body now attending Spartan.

The international student population continues at about 15 percent of the student body, comprised of students from approximately 35 countries. Again, Spartan appreciates the cooperation and assistance afforded the school by the Oklahoma State Regents' staff and Oklahoma State University during the past year.

CHAPTER II
HISTORICAL AND STATISTICAL INFORMATION

OKLAHOMA HIGH SCHOOL GRADUATES—1981

Some 38,875 young people completed the 12th grade and were graduated from high school in Oklahoma in May, 1981. Herewith are the numbers by county.

ENROLLMENT OF VETERANS IN OKLAHOMA

Public Law 89-358, Veterans' Readjustment Benefits Act of 1966, gives educational benefits to veterans, certain veterans' dependents, and servicemen with more than six months' active duty after February 1, 1955. Since original enactment, amendments have passed increasing monthly benefits, providing additional entitlement to undergraduate veteran students, and extending to ten years from date of discharge for completion of training.

VETERAN ENROLLMENT AS OF OCTOBER 1, 1981

ACCREDITED INSTITUTIONS IN OKLAHOMA HIGHER EDUCATION

Institutions listed below are fully accredited by the Oklahoma State Regents for Higher Education as of July 1, 1980. These institutions are also accredited by the North Central Association, the regional accrediting agency, except those indiated by an asterisk.

Institution	Location
COMPREHENSIVE AND REGIONAL STATE UNIVERSITIES	
University of Oklahoma	Norman
Oklahoma State University	Stillwater
Central State University	Edmond
East Central Oklahoma State University	Ada
Northeastern Oklahoma State University	Tahlequah
Northwestern Oklahoma State University	Alva
Southeastern Oklahoma State University	Durant
Southwestern Oklahoma State University	Weatherford
Cameron University	Lawton
Langston University	Langston
Oklahoma Panhandle State University	Goodwell
University of Science and Arts of Oklahoma	Chickasha
The Oklahoma College of Osteopathic Medicine and Surgery (Professional College)	Tulsa
STATE JUNIOR COLLEGES	
Carl Albert Junior College	Poteau
Claremore Junior College	Claremore
Connors State College	Warner
Eastern Oklahoma State College	Wilburton
El Reno Junior College	El Reno
Murray State College	Tishomingo
Northeastern Oklahoma A&M College	Miami
Northern Oklahoma College	Tonkawa
Oscar Rose Junior College	Midwest City
Seminole Junior College	Seminole
South Oklahoma City Junior College	Oklahoma City
Tulsa Junior College	Tulsa
Western Oklahoma State College	Altus
*Sayre Junior College (Community Junior College)	Sayre

Institution	Location
INDEPENDENT SENIOR COLLEGES	
Bartlesville Wesleyan College	Bartlesville
Bethany Nazarene College	Bethany
*Flaming Rainbow University	Tahlequah
*Midwest Christian College	Oklahoma City
Oklahoma Baptist University	Shawnee
Oklahoma Christian College	Oklahoma City
Oklahoma City University	Oklahoma City
*Oklahoma Missionary Baptist College, Institute & Seminary	Marlow
Oral Roberts Univesrity	Tulsa
Phillips University	Enid
The University of Tulsa	Tulsa

TOTAL 1980-81	8,509	$2,087,827.68	$2,305,025.40

GUARANTEED STUDENT LOAN PROGRAM

House Bill 1056 of the 30th Oklahoma Legislature directed the Oklahoma State Regents for Higher Education to develop a loan guarantee program to assist students in securing educational loans Title IV-B of the Higher Education Act of 1965 provided for federal advances to the reserve fund of loan guarantee programs maintained by the several states. Final arrangements were completed in the fall of 1966, with the U.S. Office of Education, so that this program could become operational.

As of June 30, 1981, a total of $677,181.30 in federal funds had been received for this program. This amount, together with some $1,296,124 in state funds, was maintained as a "reserve" against death or default. The number and dollar volume of loans outstanding by lending institutions and by educational institutions is shown in the following tables.

TOTAL	*8,572	$2,040,736.00

This represents the total number of students and the dollar amount disbursed for the Tuition Aid Grant Program for the Fiscal Year 1980-81.

*This number differs from the actual awards made (8,454) because of mid-year transfers being counted at two different institutions.

STUDENT FINANCIAL AIDS

As the cost of education increases, more and more students become concerned about finances. The following seven programs which have provided assistance for more than a million students during this academic year should be of interest.

Pell (Basic) Grants: This program, formerly known as the Basic Educational Opportunity Grant, provides awards to qualified students attending eligible institutions of higher education. All other sources of aid will be given *in addition* to the Pell Grant. The maximum grant eligibility for each student is currently $1,800 less the amount the student and his family can be expected to contribute toward the student's education. The amount of this expected family contribution is determined on the basis of a familiy contribution schedule developed by the U.S. Department of Education.

College Work-Study: A program of employment in which the student, particularly one from a low-income family, is compensated for the number of hours he works for the institution, or for an eligible off-campus agency.

National Direct Student Loans: A program of borrowing, primarily for needy students, in which the student has an obligation to repay his loan, with three percent interest, within a ten-year period following college attendance.

Supplemental Educational Opportunity Grants: A program of direct grants in which the student receives a non-obligating award of funds, based on exceptional financial need and evidence of academic or creative promise.

Guaranteed Loans: A program of borrowing, primarily for students from middle or upper-income families. The student has an obligation to repay his loan with seven percent interest, after completing his full-time studies.

The Oklahoma Student Loan Program: The 1972 Oklahoma Legislature enacted into law Senate Bill 618 which created the Oklahoma Student Loan Authority to provide loans to students of Oklahoma as may be needed to help pay the cost of their education. The program supplements the existing Guaranteed Student Loan Program and provides a lending source to eligible students who are not otherwise able to identify a lender.

Oklahoma Tuition Aid Grant Program: A program of direct grants to financially needy students supported by matching State and Federal funds. Maximum grants amount to up to $500 per year depending upon family income, family size, and educational costs. The program which began operation during 1974-75 is administered by the State Regents.

REGENTS' PUBLICATIONS

The information gathered, analyzed, and published by the State Regents provides the foundation upon which sound planning is based. In addition to reports published annually, a number of special purpose documents were published by the State Regents in Fiscal 1980-81.

THE OKLAHOMA COLLEGE TESTING PROGRAM

In the fall of 1959 all Oklahoma institutions of higher learning, both publicly and independently controlled, began a statewide testing program for high school seniors seeking admission to college.

The Oklahoma program is affiliated with the American College Testing Program, with headquarters at Iowa City, Iowa. Approximately one million high school seniors throughout the nation took the ACT examination during the 1980-81 school year.

In Oklahoma during 1980-81, 33,694 students were tested.

Colleges and universities in the State System require that each entering freshman student must have had the ACT examination before the student can complete his enrollment as a freshman in college.

Colleges use the scores on the test in guidance, in admission, and in awarding scholarship aid to their applicants, as well as in placing those accepted in course sections or programs appropriate to their ability. High school advisors, individual students themselves, and their parents use the scores in helping plan for further education and careers.

Five scores are yielded by the ACT test. These are four part-scores indicating general aptitude for success (rather than mastery of specific course content) in English, mathematics, the social studies and the natural sciences. There is also a composite score. The composite score has been found to be as highly predictive of average college freshman grades as any other single index. The part-scores indicate general strengths or weaknesses in each of the four areas while English and mathematics part-scores may be used for freshman course placement.

Booklets which tell how to interpret and use the scores, and which present normative and technical data, are provided by the program.

TITLE VII, HIGHER EDUCATION ACT OF 1965

The Oklahoma State Regents for Higher Education was designated by the Governor of Oklahoma in 1964 as the agency responsible for administration of Title VII of the Higher Education Act of 1965 (formerly Title I of the Higher Education Facilities Act of 1963).

As the State Commission for this program, the State Regents were charged with the responsibility of developing a State Plan setting forth the method for assignment of priorities to applications for federal grants for the construction of undergraduate academic facilities. The Oklahoma State Plan, developed in accordance with regulations established by the

federal government, assigned priorities on the basis of future enrollment growth and the degree of utilization of existing facilities.

As of June 30, 1975, some $1.7 billion in grants had been approved nationwide, of which amount $26,465,463 had been received by Oklahoma institutions. No funds have been available in this program since 1974.

TITLE VI-A, HIGHER EDUCATION ACT OF 1965

In 1966, the Governor of Oklahoma designated the Oklahoma State Regents for Higher education as the agency responsible for administration of Title VI-A of the Higher Education Act of 1965. This program provided for matching grants for the purchase of undergraduate instructional equipment. Two types of equipment were eligible. Laboratory and other special equipment and materials could be purchased for instruction in a variety of subjects. Another part of the program involved equipment and materials for closed-circuit instructional television.

The responsibility of the State Regents with regard to this program was similar to that involved in the Title VII program. The State Commission developed a State Plan for distributing the available funds to Oklahoma institutions. The State Commission reviewed applications and forwarded successful applications to the Office of Education in Washington for final review and issuance of grants to institutions.

Grants were recommended by the State Commission for this program during its first 15 fiscal years in the amount of $2,133,289. No funds have been available for the program since 1976.

COMPREHENSIVE FACILITIES PLANNING

The long-range planning efforts of the State Regents were expanded and strengthened during the past years with the assistance of funds provided by the Higher Education Facilities Act, as amended by the Higher Education Act of 1965. From 1967 through 1974 the State Regents received $346,478 in grants from this source.

These funds enabled the State Regents to refine their system of facilities inventory and to include all private institutions in the inventory. The State Regents were also able to convert the facilities data to computerized format and to begin the development of a computer-based comprehensive data system as the basis for long-range planning studies such as utilization and academic space needs.

As of 1974, grants for specific planning purposes are no longer available.

REGENTS' RESOLUTIONS DURING THE 1980-81 FISCAL YEAR

The Oklahoma State Regents for Higher Education transact appropriate business by official resolutions of the board. Other agenda may be subject to motions duly passed. A record of earlier resolutions by the board may be found in previous biennial reports published by the Regents. Resolutions enacted by the Regents during the period July 1, 1980, through June 30, 1981, are listed below:

Reolution No. 1897. July 2, 1980. A resolution allocating and allotting $40,000 to Northwestern Oklahoma State University from an appropriation in House Bill No. 1136 of the First Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8068.

Resolution No. 1898. August 6, 1980. A resolution allocating and allotting $420,195 to Southeastern Oklahoma State University from an appropriation in Section 27 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8077.

Resolution No. 1899. August 6, 1980. A resolution allocating and allotting $1,686 to Northern Oklahoma College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8078.

Resolution No. 1900. August 6, 1980. A resolution allocating and allotting $937 to Northern Oklahoma College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8079.

Resolution No. 1901. August 6, 1980. A resolution allocating and allotting $1,706 to Northern Oklahoma College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8080.

Resolution No. 1902. August 6, 1980. A resolution allocating and allotting $1,541 to Northern Oklahoma College from an appropration in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects

Fund, for partial accomplishment of capital improvements, Project No. 8081.

Resolution No. 1903. August 6, 1980. A resolution allocating and allotting $160 to Northern Oklahoma College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8082.

Resolution No. 1904. August 19, 1980. A resolution allocating and allotting $25,945.86 to Eastern Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8085.

Resolution No. 1905. August 19, 1980. A resolution allocating and allotting $42,790 to Eastern Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8086.

Resolution No. 1906. August 19, 1980. A resolution allocating and allotting $49,270 to Eastern Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8087.

Resolution No. 1907. August 20, 1980. A resolution allocating and allotting $50,000 to Claremore Junior College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8088.

Resolution No. 1908. August 25, 1980. A resolution allocating and allotting $11,770 to Eastern Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8085.

Resolution No. 1909. August 27, 1980. A resolution allocating and allotting $22,878.64 to The Oklahoma College of Osteopathic Medicine

and Surgery pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from income on deposit in the institution's Revolving Fund for supplemental support of the teaching clinic.

Resolution No. 1910. September 2, 1980. A resolution allocating and allotting $1,350,000 to Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8091.

Resolution No. 1911. September 2, 1980. A resolution allocating and allotting $15,000 to Northeastern Oklahoma A&M College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8092.

Resolution No. 1912. September 5, 1980. A resolution allocating and allotting $57,288 to El Reno Junior College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8093.

Resolution No. 1913. September 8, 1980. A resolution allocating and allotting $3,000,000 to the University of Oklahoma from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7927.

Resolution No. 1914. September 10, 1980. A resolution allocating and allotting $1,375,000 to Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7935.

Resolution No. 1915. September 15, 1980. A resolution allocating and allotting $60,000 to Eastern Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8037.

Resolution No. 1916. September 15, 1980. A resolution allocating and allotting $1,878 to Eastern Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8085.

Resolution No. 1917. September 19, 1980. A resolution allocating and allotting $4,970 to Northeastern Oklahoma A&M College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8003.

Resolution No. 1918. September 22, 1980. A resolution allocating and allotting $18,330.23 to The Oklahoma College of Osteopathic Medicine and Surgery pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from income on deposit in the institution's Revolving Fund for supplemental support of the teaching clinic.

Resolution No. 1919. September 24, 1980. A resolution allocating and allotting $400,000 to Western Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 7973.

Resolution No. 1920. September 24, 1980. A resolution allocating and allotting $18,014 to Northeastern Oklahoma A&M College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8007.

Resolution No. 1921. September 24, 1980. A resolution allocating and allotting $47,522 to Northeastern Oklahoma A&M College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8008.

Resolution No. 1922. September 24, 1980. A resolution allocating and allotting $7,000 to Claremore Junior College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements

Projects Fund, for partial accomplishment of capital improvements, Project No. 8006.

Resolution No. 1923. September 24, 1980. A resolution allocating $582,354 to institutions of The Oklahoma State System of Higher Education as a result of a contract with the State Board of Vocational and Technical Education for support of the Educational and General Operating Budgets and Technical Education Programs for the fiscal year ending June 30, 1981.

Resolution No. 1924. September 26, 1980. A resolution allocating and allotting $7,000 to Oklahoma Panhandle State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8005.

Resolution No. 1925. September 29, 1980. A resolution allocating and allotting $500,000 to Oscar Rose Junior College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8004.

Resolution No. 1926. September 29, 1980. A resolution allocating and allotting $979,729 to Oscar Rose Junior College pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from income derived from local ad valorem tax sources on deposit in the institution's Revolving Fund for supplemental support of facility development for technical and occupational programs.

Resolution No. 1927. October 1, 1980. A resolution allocating and allotting $8,500 to the University of Science and Arts of Oklahoma from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8010.

Resolution No. 1928. October 9, 1980. A resolution allocating and allotting $101,678 to El Reno Junior College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8011.

Resolution No. 1929. October 23, 1980. A resolution allocating and allotting $416,500 to the University of Science and Arts of Oklahoma from an appropriation in Section 28 of House Bill No. 1807 of the Second

Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8010.

Resolution No. 1930. October 13, 1980. A resolution allocating and allotting $22,000 to the University of Oklahoma from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8013.

Resolution No. 1931. October 17, 1980. A resolution allocating and allotting $50,000 to Northeastern Oklahoma A&M College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8014.

Resolution No. 1932. October 17, 1980. A resolution allocating and allotting $23,836 to Northeastern Oklahoma A&M College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8092.

Resolution No. 1933. October 17, 1980. A resolution allocating and allotting $7,942 to El Reno Junior College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8093.

Resolution No. 1934. October 22, 1980. A resolution allocating $25,000 to the Oklahoma State University Oklahoma City Technical Institute pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institution's Revolving Fund for support of the Educational and General Operating Budget for the fiscal year ending June 30, 1981.

Resolution No. 1935. October 20, 1980. A resolution allocating and allotting $29,000 to Northeastern Oklahoma A&M College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8022.

Resolution No. 1936. October 20, 1980. A resolution allocating and allotting $9,720 to Northeastern Oklahoma A&M College from an

appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8023.

Resolution No. 1937. October 23, 1980. A resolution allocating and allotting $107,467 to Western Oklahoma State College from an appropriation in Section 27 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8024.

Resolution No. 1938. October 23, 1980. A resolution allocating and allotting $201,477.84 to Western Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8024.

Resolution 1939. October 23, 1980. A resolution allocating and allotting $391,055.16 to Western Oklahoma State College from an appropriation in Section 9 of House Bill No. 1264 of the First Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8024.

Resolution No. 1940. November 3, 1980. A resolution allocating and allotting $8,200 to Southwestern Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8029.

Resolution No. 1941. November 3, 1980. A resolution allocating and allotting $1,775 to Cameron University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8030.

Resolution No. 1942. November 3, 1980. A resolution allocating and allotting $317 to Cameron University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8031.

Resolution No. 1943. November 3, 1980. A resolution allocating and allotting $11,800 to Cameron University from an appropriation in

Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8032.

Resolution No. 1944. November 3, 1980. A resolution allocating and allotting $35,585 to Eastern Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8037.

Resolution No. 1945. November 7, 1980. A resolution allocating and allotting $2,700 to the Oklahoma State University Oklahoma City Technical Institute from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8035.

Resolution No. 1946. November 7, 1980. A resolution allocating and allotting $19,008 to Northeastern Oklahoma A&M College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8036.

Resolution No. 1947. November 7, 1980. A resolution allocating and allotting $10,000 to Northeastern Oklahoma A&M College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8037.

Resolution No. 1948. November 7, 1980. A resolution allocating and allotting $6,200 to Northeastern Oklahoma A&M College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improve--ments Projects Fund, for partial accomplishment of capital improvements, Project No. 8038.

Resolution No. 1949. November 10, 1980. A resolution allocating and allotting $173,750 to Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8033.

Resolution No. 1950. November 13, 1980. A resolution allocating and allotting $6,500 to Northeastern Oklahoma A&M College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8039.

Resolution No. 1951. November 14, 1980. A resolution allocating and allotting $33,710 to Eastern Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8086.

Resolution No. 1952. November 14, 1980. A resolution allocating and allotting $12,330 to Eastern Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8087.

Resolution No. 1953. November 19, 1980. A resolution allocating and allotting $105,000 to Murray State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8040.

Resolution No. 1954. November 26, 1980. A resolution allocating $8,852 to East Central Oklahoma State University pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institution's Revolving Fund for support of the Educational and General Operating Budget for the fiscal year ending June 30, 1981.

Resolution No. 1955. November 19, 1980. A resolution allocating $250,000 to Tulsa Junior College pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from income derived from local ad valorem tax sources on deposit in the institution's Revolving Fund for supplemental support of facility development for technical and occupational programs.

Resolution No. 1956. November 19, 1980. A resolution allocating $700,000 to Tulsa Junior College pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from income derived from local ad valorem tax sources on deposit in the institution's Revolving Fund for supplemental support of facility development for technical and occupational programs.

Resolution No. 1957. November 19, 1980. A resolution allocating and allotting $500,000 to Tulsa Junior College from an appropriation in

Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8095.

Resolution No. 1958. November 20, 1980. A resolution allocating and allotting $364,222 to Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8042.

Resolution No. 1959. November 20, 1980. A resolution allocating and allotting $191,875 to Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8012.

Resolution No. 1960. November 26, 1980. A resolution allocating and allotting $21,534 to Murray State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8044.

Resolution No. 1961. December 3, 1980. A resolution allocating and allotting $123,878 to Murray State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8046.

Resolution No. 1962. December 16, 1980. A resolution allocating $246,010 to Langston University pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institution's Revolving Fund to support the Educational and General Operating Budget for the fiscal year ending June 30, 1981.

Resolution No. 1963. December 9, 1980. A resolution allocating and allotting $300,000 to Carl Albert Junior College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8051.

Resolution No. 1964. December 23, 1980. A resolution allocating and allotting $343,000 to Claremore Junior College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements

Projects Fund, for accomplishment of capital improvements, Project No. 8006.

Resolution No. 1965. December 30, 1980. A resolution allocating and allotting $22,000 to the University of Oklahoma Health Sciences Center from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8053.

Resolution No. 1966. January 6, 1981. A resolution allocating and allotting $8,289.85 to The Oklahoma College of Osteopathic Medicine and Surgery pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903 from income on deposit in the institution's Revolving Fund for supplemental support of the Teaching Clinic.

Resolution No. 1967. January 6, 1981. A resolution allocating and allotting $300,000 to Connors State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8101.

Resolution 1968. January 6, 1981. A resolution allocating and allotting $108,800 to Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8102.

Resolution No. 1969. January 6, 1981. A resolution allocating and allotting $324,000 to the Oklahoma State University School of Technical Training at Okmulgee from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8103.

Resolution No. 1970. January 8, 1981. A resolution allocating and allotting $485,595.62 to El Reno Junior College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8104.

Resolution No. 1971. January 14, 1981. A resolution allocating and allotting $5,407.14 to Eastern Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements

Projects Fund, for accomplishment of capital improvements, Project No. 8085.

Resolution No. 1972. January 14, 1981. A resolution allocating and allotting $20,899 to Eastern Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8110.

Resolution No. 1973. January 16, 1981. A resolution allocating and allotting $401,800 to Southwestern Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8029.

Resolution 1974. January 28, 1981. A resolution allocating $5,933 to Eastern Oklahoma State College pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institution's Revolving Fund to support the Educational and General Operating Budget for the fiscal year ending June 30, 1981.

Resolution No. 1975. January 20, 1981. A resolution allocating and allotting $199,877 to Northern Oklahoma College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8078.

Resolution No. 1976. January 20, 1981. A resolution allocating and allotting $12,021 to Northern Oklahoma College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8079.

Resolution No. 1977. January 20, 1981. A resolution allocating and allotting $83,573 to Northern Oklahoma College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8080.

Resolution No. 1978. January 20, 1981. A resolution allocating and allotting $355,630 to Northwestern Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improve-

ments Projects Fund, for accomplishment of capital improvements, Project No. 8111.

Resolution No. 1979. January 21, 1981. A resolution allocating and allotting $600,000 to Langston University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8112.

Resolution No. 1980. January 21, 1981. A resolution allocating and allotting $495,000 to Northeastern Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8113.

Resolution No. 1981. January 21, 1981. A resolution allocating and allotting $360,000 to Central State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project. No. 8114.

Resolution No. 1982. January 23, 1981. A resolution allocating and allotting $393,000 to East Central Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project. No. 8108.

Resolution No. 1983. January 26, 1981. A resolution allocating and allotting $415 to Eastern Oklahoma State College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8037.

Resolution No. 1984. January 29, 1981. A resolution allocating and allotting $20,000 to Carl Albert Junior College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8051.

Resolution No. 1985. January 29, 1981. A resolution allocating and allotting $343,000 to Oklahoma Panhandle State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session

of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8005.

Resolution No. 1986. January 29, 1981. A resolution allocating and allotting $86,981 to Cameron University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8030.

Resolution No. 1987. January 29, 1981. A resolution allocating and allotting $15,555 to Cameron University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8031.

Resolution No. 1988. January 29, 1981. A resolution allocating and allotting $578,200 to Cameron University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8032.

Resolution No. 1989. January 30, 1981. A resolution allocating and allotting $27,000 to Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project. No. 8122.

Resolution No. 1990. January 28, 1981. A resolution allocating and allotting $35,000 to Connors State College pursuant to Title 70, O.S., 1971, Sections 3206, 3210 and 3903, from income derived from local ad valorem tax sources accumulated income in the agency's Revolving Fund for the purchase of land.

Resolution No. 1991. February 4, 1981. A resolution allocating and allotting $308,248 to Seminole Junior College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project. No. 8123.

Resolution No. 1992. February 4, 1981. A resolution allocating and allotting $243,530 to Northeastern Oklahoma A&M College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8003.

Resolution No. 1993. February 12, 1981. A resolution allocating and allotting $132,300 to the Oklahoma State University Oklahoma City Technical Institute from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8035.

Resolution No. 1994. February 12, 1981. A resolution allocating and allotting $441,425 to Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8124.

Resolution No. 1995. February 12, 1981. A resolution allocating and allotting $546,035 to Oklahoma State University from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8127.

Resolution No. 1996. February 25, 1981. A resolution allocating $250,000 to the Oklahoma State University School of Technical Training at Okmulgee pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institution's Revolving Fund to support the Educational and General Operating Budget for the fiscal year ending June 30, 1981.

Resolution No. 1997. March 3, 1981. A resolution allocating and allotting $310,000 to South Oklahoma City Junior College pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from income derived from local ad valorem tax sources on deposit in the institution's Revolving Fund for supplemental support of facility development.

Resolution No. 1998. March 3, 1981. A resolution allocating and allotting $900,000 to South Oklahoma City Junior College from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 8036.

Resolution No. 1999. March 11, 1981. A resolution allocating and allotting $1,078,000 to the University of Oklahoma Health Sciences Center from an appropriation in Section 28 of House Bill No. 1807 of the Second Session of the Thirty-Seventh Oklahoma Legislature out of the Capital Improvements Projects Fund, for accomplishment of capital improvements, Project No. 8053.

Resolution No. 2000. March 11, 1981. A resolution requesting that the Oklahoma State Regents for Higher Education proclaim March 11, 1981, as a special day of recognition and appreciation celebrating the Fortieth Anniversary of The Oklahoma State System of Higher Education.

Resolution No. 2001. March 25, 1981. A resolution allocating $30,000 to the Oklahoma State University Oklahoma City Technical Institute pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institution's Revolving Fund to support the Educational and General Operating Budget for the fiscal year ending June 30, 1981.

Resolution No. 2002. March 25, 1981. A resolution allocating $70,000 to Southwestern Oklahoma State University pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institution's Revolving Fund to support the Educational and General Operating Budget for the fiscal year ending June 30, 1981.

Resolution No. 2003. March 25, 1981. A resolution allocating $53,934 to Langston University pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institution's Revolving Fund to support the Educational and General Operating Budget for the fiscal year ending June 30, 1981.

Resolution No. 2004. March 25, 1981. A resolution allocating $303,000 to Tulsa Junior College pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institution's Revolving Fund to support the Educational and General Operating Budget for the fiscal year ending June 30, 1981.

Resolution No. 2005. March 25, 1981. A resolution allocating $20,487 to institutions of The Oklahoma State System of Higher Education as a result of a contract with the State Board of Vocational and Technical Education for support of the Educational and General Operating Budgets and Technical Education Programs for the fiscal year ending June 30, 1981.

*Budgeted expenditures for educational and general activities of a contract or grant-agreement nature unique to the institution with respect either to source of financing or to nature of the research or services undertaken.

CRITERIA FOR DETERMINING AMOUNTS NEEDED FOR THE EDUCATIONAL AND GENERAL OPERATING BUDGET

The State Regents have changed the procedure for identifying the need for funds at institutions from a budget functional basis to an educational program basis. It is the purpose of the new procedure to relate the need for operating funds directly to educational programs of study offered at the institution. Research and study regarding costs of educational program operation at institutions in the State System and in the region over the past few years permitted the State Regents to move forward in the Fiscal Year 1973-74 on an experimental basis of educational program budgeting for three institutions. For 1974-75 the budget for all 20 state colleges and universities were determined on a program budget basis and this basis was used for the 25 colleges and universities in the State System for 1975-76 through 1980-81 and continued for 1981-82. Guiding principles and procedures involved in this method are explained below.

GUIDING PRINCIPLES

1. Oklahoma should support the educational programs of institutions in the State System at such level that will provide high-quality educational performance.
2. Each institution in the State System should carry out three broad areas of educational program responsibility: (a) instruction, (b) research, and (c) public service.
3. The budget needs of each institution should be determined on the basis of educational program costs including the three categories above projected for the budget year.
4. The instructional program costs should include: (a) resident instruction, (b) organized activities related to instruction, (c) library, (d) general administration, (e) general expense, and (f) operation and maintenance of the physical plant. Budget needs for organized research and extension and public service should be computed separately from instructional costs.
5. Primary factors that should be recognized in determining the instructional part of the budget needs should include: (a) type of institution, (b) instructional program costs by level, and (c) full-time-equivalent enrollment by level for the full fiscal year.
6. Operating experience of institutions in Oklahoma and institutions in the 10-state region including (a) ratios of students to faculty by level, (b) average salaries of full-time faculty by type of institution, and (c)

total educational and general budget student per capita expenditure, should be recognized as influence factors when establishing instructional program costs. For the two comprehensive universities, the standard of reference should be the leading state universities in the region, including specifically the universities in the Big Eight Conference in which our two comprehensive universities are members.

7. Full-time-equivalent enrollment data should be based on the full fiscal year (summer, fall and spring terms) with a factor of 30 student credit hours used to compute undergraduate enrollment and a factor of 24 student credit hours for graduate enrollment.
8. The needs for college-level trained manpower should be taken into consideration in determining priorities for funding at institutions.
9. A realistic estimate of revolving fund income should be made and applied toward meeting the institutional budget needs consistent with state law.

PROCEDURES — 25 COLLEGES AND UNIVERSITIES

The objective is to identify the cost of operating educational programs at institutions. To accomplish this, the instructional programs to be offered must be identified, the number of students by level to be enrolled in each program must be projected, and the cost per student by level must be calculated. Given these data, the cost for each instructional program is computed, and these costs are aggregated. An amount for research and an amount for public service is then determined, and these amounts are then added to the instructional cost. The sum of the costs for instruction, research, and public service becomes the total educational and general budget of an institution. From this total the amount of estimated revolving fund income for the budget year is subtracted, and the difference is the amount of state-appropriated funds required to fund the institution's budget.

These procedures were followed in accomplishing the objective:

1. The instructional programs operated at each institution in the previous year are identified. Those programs not expected to operate in the budget year are deleted and those new programs expected to operate in the budget year are added.
2. The course composition of each of the instructional programs to be offered at an institution is then identified.

3. The cost of operating the instructional programs so identified by level in the budget is next projected.
4. The number of full-time-equivalent students expected to enroll by level in the instructional programs during the full fiscal year for which the budget need is being determined is then projected.
5. The next step is to identify the cost of operating each instructional program for each student by level in the budget year, then multiply these cost units by the number of FTE students projected by level for the various programs that will operate in the budget year.
6. The cost of operating each instructional program is then computed and these are added to get the total cost of all instructional programs at the institution.
7. The amount of funds to be added to the budget for research is then determined. Basic functions of institutions will, of course, influence the determination of these amounts. Institutions that accomplish significant research must be provided funds accordingly. All institutions carry on some type of institutional research and study of programming and thus must be provided an allowance for this function of the budget.
8. Extension and public service is the third category of the educational program budget. Again, institutions' functional assignments will influence the degree to which they participate in extension programs and/or public service programs. An appropriate amount for this program is accordingly determined.
9. The final step is to add the amounts determined for (a) instructional programs, (b) research, and (c) extension and public service. This becomes the total amount of budget needs of the institution for the educational programs to be operated.

PROCEDURES — OSTEOPATHIC MEDICAL COLLEGE

The Oklahoma College of Osteopathic Medicine and Surgery: The budget for this institution is determined on the basis of needs to operate and establish courses and other operational requirements as the institution continues to develop and accept its eighth class of students. Instructional needs are computed to provide for the projected student enrollment in 1981-82 and adjusted for price increases. Requirements for General Administration, General Expense, Organized Research, Continuing Education, Library and Physical Plant Maintenance and Operation are based on 1980-81 budgeted amounts and adjusted for price increases. When computed, the amounts for all items are added to get the total

budget requirement for the year. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is the amount that is requested to be appropriated by the Legislature.

PROCEDURES — 8 OTHER CONSTITUENT AGENCIES

University of Oklahoma Health Sciences Center: For the year 1981-82, a programmatic approach to the determination of educational and general budget needs was used. This approach identified seven instructional programs: College of Medicine; College of Dentistry; College of Nursing; College of Health; College of Pharmacy; and Graduate College of Medical and Dental Science. Other budget functions include: Library; Continuing Education; Organized Research; General Administration; General Expense; and Physical Plant Maintenance and Operation. The budget for each division is calculated as stated below. When computed the amounts for all programs and functions comprise the budget required for the year. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is requested to be appropriated by the Legislature.

College of Medicine: Project full-year FTE student enrollment by student classification. Allow one FTE student for each 0.4 resident or physician associate. Allow one faculty position for each 4.6 FTE students. Multiply the number of FTE faculty positions by $42,000 (average full-year salary for 1981-82) to determine the amount needed for faculty salaries. Allow six other professional FTE positions at an average full-year salary for 1981-82 of $43,600 to determine salaries needed for these positions. Allow 111.1 other support personnel FTE positions (at the rate of 0.6 FTE positions per instructional faculty position) at an average full-year salary for 1981-82 of $12,210 to determine salaries needed for these positions. To the sum of all salaries, add 13.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses of the instructional program. The total of salaries and wages and other expenses becomes the total budget needs for the instructional program.

College of Dentistry: Allow 31 FTE dental faculty positions plus one position for each 4.6 projected FTE dental students above 48. Multiply the number of FTE dental faculty positions by $36,100 (average full-year salary for 1981-82) to determine the total amount needed for dental faculty salaries. Allow one FTE dental hygiene faculty position for each 12 projected FTE dental hygiene students. Multiply the number of FTE dental hygiene faculty positions by $24,200 (average full-year salary for 1981-82) to determine the total

amount needed for dental hygiene faculty salaries. Allow three other professional FTE positions at an average full-year salary for 1981-82 of $43,600 to determine salaries needed for these positions. Allow 85.4 other support personnel FTE positions (at the rate of 1.0 per dental faculty and hygiene faculty position) at an average full-year salary for 1981-82 of $12,210 to determine salaries needed for these positions. To the sum of all salaries, add 13.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses of the instructional program. The total of salaries and wages and other expenses becomes the total budget needs for the instructional program.

College of Nursing: Project full-year FTE student enrollment by level. Allow one faculty position for each eight undergraduate FTE students and one faculty position for each five graduate FTE students. Multiply the number of FTE faculty positions by $25,500 (average full-year salary for 1981-82) to determine the amount needed for faculty salaries. Allow three other professional FTE positions at an average full-year salary for 1981-82 of $43,600 to determine salaries needed for these positions. Allow 31.5 other support personnel, FTE positions (at the rate of 0.5 FTE positions per instructional faculty position) at an average full-year salary for 1981-82 of $12,210 to determine salaries needed for these positions. To the sum of all salaries, add 13.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses of the instructional program. Allow $208,109 for operation of the graduate nursing program at the Tulsa Branch Medical Program. The total of salaries and wages and other expenses becomes the total budget needs for the instructional program.

College of Health: Project full-year FTE student enrollent by level. Allow one faculty position for each 8.0 FTE students. Multiply the number of FTE faculty positions by $27,500 (average full-year salary for 1981-82) to determine salaries needed for these positions. Allow 29.9 other support personnel FTE positions (at the rate of 0.46 FTE positions per instructional faculty position) at an average full-year salary for 1981-82 of $12,210 to determine salaries needed for these positions. To the sum of all salaries, add 13.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses of the instructional program. Allow $100,000 for operation of the office of the Dean of Public Health. The total of salaries and wages and other expenses becomes the total budget needs for the instructional program.

College of Pharmacy: Project full-year FTE student enrollment by

level. Allow one faculty position for each 16 undergraduate FTE students and one faculty position for each 8 graduate FTE students. Multiply the number of FTE faculty positions by $29,500 (average full-year salary for 1981-82) to determine the amount needed for faculty salaries. Allow two other professional FTE positions at an average full-year salary for 1981-82 of $43,600. Allow four other support personnel FTE positions at an aveage full-year salary for 1981-82 of $12,210 to determine salaries needed for these positions. To the sum of all salaries, add 13.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses of the instructional program. The total of salaries and wages and other expenses becomes the budget needs for the instructional program.

Graduate College of Medical and Dental Science: Project full-year FTE student enrollment. Allow one faculty position for each eight students. Multiply the number of FTE faculty positions by $36,700 (average full-year salary for 1981-82) to determine the amount needed for faculty salaries. Allow three other professional FTE positions at an average full-year salary for 1981-82 of $43,600 to determine salaries needed for these positions. Allow 4.5 other support personnel FTE positions (at the rate of 0.4 FTE positions per instructional faculty position) at an average full-year salary for 1981-82 of $12,210 to determine salaries needed for these positions. To the sum of all salaries add 13.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses of the instructional program. The total of salaries and wages and other expenses become the total budget needs for the instructional program.

Library: Allow ten professional personnel at an average full-year salary for 1981-82 of $21,503 to determine salaries needed for professional personnel. Allow 15.0 support personnel FTE positions at an average full-year salary of $12,210 to determine salaries for support personnel. To the sum of all salaries, add 13.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses. Add 58.74% of total salaries, staff benefits and other expenses for books, periodicials, library binding and printing, and other direct library expense. The total becomes the budget needs for Library.

General Administration: Project the amount for 1981-82 based on the agency's 1980-81 need for this function, adjusted 12.0% for price increases.

General Expense: Project the amount for 1981-82 based on the agency's 1980-81 need for this function, adjusted 12.0% for price increases.

Continuing Education: Project the amount for 1981-82 based on the agency's 1980-81 need for this function, with an allowance for a 12.0% increase during 1981-82.

Organized Research: Project the amount for 1981-82 based on the agency's 1980-81 need for this function, with an allowance for a 12.0% increase during 1981-82.

Physical Plant Maintenance and Operation: Project the amount for 1981-82 based on the agency's need for this function for 1980-81, adjusted 12.0% for price increases.

University of Oklahoma Law Center: The budget for this agency is calculated on the basis of proposed programs of activities for the budget year 1981-82. For the budget year 1981-82, eleven programs are identified. For the instructional program, project full-year full-time student enrollment. Allow one faculty position for each 20 FTE students. Multiply the total number of FTE faculty positions by $41,000 (average 9/10 month salary for 1981-82) to determine the amount needed for faculty salaries. Allow for support personnel services, equipment, supplies, and materials as allowed for 1980-81 and adjusted for enrollment and price increases. Allow the same positions as allowed in 1980-81 and the amounts for other objects of expenditure as allowed in 1980-81 and adjusted for price increases. Allow $10,000 for the Experimental Admissions Program. Allow $28,000 for the Paralegal Education Program. When computed, the amounts for all primary programs are added to get the requirements for the year. To this amount is added the student special enrichment program estimated at a cost equal to the special law school student fee ($2.00 per student-credit-hour x 19,560 SCH). The amount estimated to be collected during the year in revolving funds is subtracted from the total primary budget and the balance is the amount that is requested to be appropriated by the Legislature.

Oklahoma Geological Survey: The total budget for this agency is calculated on the basis of proposed programs of activities for the budget year 1981-82. For the budget year 1981-82, eleven programs are identified. The amounts for all programs are added to get the total budget requirement for the year. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is the amount that is requested to be appropriated by the Legislature.

OSU College of Veterinary Medicine: Project full-year FTE student enrollment. Allow one faculty position for each 5.3 FTE students. Multiply the FTE faculty positions by $36,100 (average full-year salary for 1981-82) to determine the total amount needed for faculty salaries. Add to this, 33% for other instructional expenses, and the total represents the

amount allowed for the function of instruction. This figure becomes the budget base and the following percentages are applied to the budget base for the other functions of the budget: General Administration, 10%; General Expense, 2%; Extension and Public Service, 8%; Organized Research, 14%; Library, 3%; and Physical Plant, 15%. When computed, the amounts for all budget functions are added to get the total budget requirement for the year. Allow $1,120,000 for the operation of the Animal Disease Diagnostic Laboratory and $1,881,050 for the operation of the New Teaching Hospital. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is the amount that is requested to be appropriated by the Legislature.

OSU Agricultural Experiment Station: The budget for this agency is determined on a basis which provides for a significant increase in the volume of research and experimentation. It provides for a more selective approach to projects undertaken to assure that they are strictly agriculture in nature. The 1981-82 budget for this agency is determined on a program basis. This approach identifies the functions of General Administration and General Expense and three broad program areas of research and experimentation. These programs are Animal Production, Plant Production, and Other Research. Needs for each major budget category are based on the volume of work assigned for the current year which is to be continued and allows a factor for inflation. In addition, there is provided substantial funds for implementing the findings of a State Regents' study completed in November 1979. The amounts for all programs are added to get the total budget requirements for the year. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is the amount that is requested to be appropriated by the Legislature.

OSU Agricultural Extension Division: The budget for this agency is determined on a basis which provides for a more selective approach to projects undertaken to assure they are in accordance with the function and programs assigned the agency. The 1981-82 budget for this agency is determined on a program basis. This approach identifies the functions of General Administration, General Expense, and four broad program areas of agricultural extension. These programs are Agriculture, Home Economics, 4-H and Youth, and Rural Development. Needs for each major budget category are based on the volume of work assigned for the current year which is to be continued and allows a factor for inflation. In addition, there is provided funds for implementing the findings of a State Regents' study completed in November 1979. The amounts for all programs are added to get the total budget requirements for the year. The

amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is the amount that is requested to be appropriated by the Legislature.

OSU School of Technical Training and Oklahoma City Technical Institute: The budgets for these agencies are determined on the basis of the cost of instructional programs to be offered during the fiscal year 1981-82. In previous years the budgets were determined on a budget function basis. However, continued study and accumulated data have permitted the determination of needs on a program budget basis.

The base year costs of each program at these agencies are determined. These costs are then interpreted on a full-time-equivalent student basis. For those programs to be offered during 1981-82, the costs are projected to that year.

The number of full-time-equivalent students expected to enroll in each program during the full-year 1981-82 is then projected. This number is multiplied by the budget year costs as determined above and results in the amount needed for each instructional program. The sum of all programs is the budget needs for instructional programs. To this amount is added an amount for extension and public service and organized research. The combined amounts make up the total budget needs for the year. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget needs and the balance is the amount that is requested to be appropriated by the Legislature.

ESTIMATING INCOME

An estimate is made of the amount of income expected to be collected at each institution and agency from student fees, from sales and services, and miscellaneous sources; and the total of this is subtracted from the total institutional budget requirement. The difference then becomes the amount requested for appropriation by the Legislature.

"State-Appropriated Funds" are those funds appropriated by the Legislature to the State Regents to be allocated to constituent institutions and agencies. "Revolving Funds" are those funds which the institutions receive from the student fees, sales and services of educational departments, the Federal government in some instances, and from other miscellaneous sources. The amount of "Revolving Funds" income is estimated for each institution after taking into consideration its fee schedule, the function of the institution and possible charges to be made by the institution for the different services rendered, and the past experience of the institution as to funds actually received from the various sources.

CAPITAL IMPROVEMENTS

In the fall of 1963, the State Regents conducted an extensive survey of the physical facilities on each campus in The Oklahoma State System of Higher Education. This survey provided the basis for a projection of the capital outlay funds needed over the ten-year period 1965-75.

For funding purposes this ten-year program was divided into two phases. Funds provided by the 1965 Oklahoma Building Bond Issue, together with available federal matching funds, were committed to accomplish the needs identified for the first phase (1965-70) of the ten-year program.

Approved projects with total development costs of $67,508,695 for capital improvement projects funded with 1965 Oklahoma Building Bond Funds were identified. State bond funds were combined with federal funds and other funds to comprise the total.

1968 OKLAHOMA BUILDING BOND ISSUE

In February, 1968, the State Regents published a research report updating the capital improvements needs of institutions in The Oklahoma State System of Higher Education through 1975. This document set forth the need for approximately 1,500,000 square feet of assignable space for academic facilities.

A total of $82,500,000 required to accomplish the needs was documented in this report.

Approval by the people of Oklahoma on December 10, 1968, of State Question 463 provided $42,250,000 for capital improvements projects in Oklahoma higher education. These funds, together with federal funds expected to be available to Oklahoma, should have made possible the accomplishment of the first three years of the Phase Two program. Immediately following the approval of State Question 463, however, the Federal Government started reducing drastically the appropriations for the construction of academic facilities. Since the state bond funds were expected to be matched with federal funds, only a few projects were able to be started with the small amount of federal matching funds. The remaining projects were held over awaiting federal matching funds.

The Revised Phase II Program

In November of 1972, the State Regents published a report on academic facilities utilization entitled *Utilization of Academic Space: Colleges and Universities in The Oklahoma State System of Higher Education — Fall Semester, 1971*. The report indicated a lack of need for

additional new construction at all campuses in the State System. This report, together with new enrollment projections showing a leveling of enrollments, clearly indicated a new, far better utilization of existing facilities instead of new construction.

The 1973 Oklahoma Legislature subsequently passed Senate Concurrent Resolution No. 8, which released the federal matching fund requirement and directed the 1968 bond funds to be expended for renovation, modernization, and equipping the existing academic buildings. The institutions began preparing revised campus master plans according to the intent of the resolution and consistent with guidelines and procedures adopted by the State Regents.

As of June 30, 1974, the Oklahoma Legislature had vitalized and issued bonds for a total of $44,500,000 ($23,500,000 of the $42,250,000 authorized for regular higher education institutions and $26,870,000 of the $26,870,000 authorized for the Oklahoma University Health Sciences Center).

Since 1975 the Oklahoma Legislature has provided yearly appropriations for capital improvement projects on State System campuses.

In 1977 the State Regents performed a new study of capital improvement needs of the State System. This study reported $102,862,135 in updated estimates of capital needs, which had been previously approved by the State Regents as part of Campus Master Plans, including $52.2 million for new construction. The balance of the projects consisted of modernization and repair of existing buildings on State System campuses.

Since 1979 the Legislature has appropriated $75,842,437 for the accomplishment of these Campus Master Plan projects, along with an additional $6 million for special items of new construction. The annual amounts appropriated for this purpose were —1979; $22,442,437; 1980: $22,400,000; 1981: $25,000,000 plus $6,000,000 for a new pharmacy building at the Univerity of Oklahoma Health Sciences Center.

STUDENT FEES

Title 70, O.S. Supp. 1980, Sections 3218, 3219, and 3220 authorize the Oklahoma State Regents for Higher Education to fix student fees in The Oklahoma State System of Higher Education within limits prescribed by the Legislature.

State educational institutions may be authorized by the State Regents to contract for, charge, collect, receive and use, any and all fees, tuition, charges, grants, and allowances available through the United States

Veterans Administration, or any other federal agency, for the education and training of veterans.

The State Regents are also authorized to establish a system of student fee waiver scholarships for each institution in The Oklahoma State System of Higher Education to be administered by the Board of Regents of the institution.

In order that all concerned — students, parents, institutional officers, Boards of Regents, members of the Legislature and other interested individuals — may have the information available, a Schedule of Fees authorized by the State Regents at each institution in the State System effective Fall Semester, 1980, as amended, has been printed and is available at the office of the State Regents.

STATE REGENTS' NO. 220 LOAN FUND

Title 70, O.S. 1971 Section 3211, provides for a loan fund in the amount of $200,000.00 to be used by the Regents for making loans to institutions for certain purposes. The fund was originally established by the Legislature in 1943 in House Bill 403.

The loan fund has served a very useful purpose in allowing institutions to meet many needs on a current basis which otherwise might have taken several years to accomplish if the loan fund had not been available. The fund turned over many times since its establishment. In fact, over one million dollars has been loaned to the various institutions over the years since its establishment.

The status of the loan funds as of June 30, 1981, was as follows:

Total Amount of Loan Fund		$200,000.00
Cash on Hand 7-1-80		25,000.00
Loans Outstanding 7-1-80		
Northeastern Oklahoma State University	$ 35,000.00

Originally (3-31-70) for FOUR years — 1970-1974.
Thereafter for a 7-year term.
Al Snipes appointed as a Trustee 3-31-70; Lanny Gardner appointed as a Regent 4-22-74; reappointed 3-20-79; term expires 4-22-85.

Position No. 5

Originally (3-31-70) for FIVE years — 1970-1975.
Thereafter for a 7-year term.
Robert Moser appointed as a Trustee 3-31-70; J. R. Daniel 6-26-72; Raymond Cook appointed as a Regent 4-22-74; Thomas J. Carlile 1-31-77; Jeanie Perkins 4-23-79; term expires 4-22-86.

Position No. 6

Originally (3-31-70) for SIX years — 1970-1976.
Thereafter for a 7-year term.
Wesley Weldon appointed as a Trustee 3-31-70; Jane Hardin appointed as a Regent 4-22-74; reappointed 6-4-80; term expires 4-22-87.

Postion No. 7

Originally (3-31-70) for SEVEN years — 1970-1977.
Thereafter for a 7-year term.
Jack E. Turner appointed as a Trustee 3-31-70; Bob McKillips appointed as a Regent 4-22-74; Harry L. Wilson 4-9-81; term expires 4-22-88.

BOARD OF REGENTS OF TULSA JUNIOR COLLEGE

		Term Expires
George E. Norvell	Tulsa	1988
Anne McWilliams	Broken Arrow	1987
T. Oscar Chappelle	Tulsa	1986
Thad Taylor, Jr.	Tulsa	1985
Edwynne Krumme	Tulsa	1984
Sheldon Detrick	Tulsa	1983
Wayman E. Humphrey	Tulsa	1982

BOARD POSITIONS

Oklahoma Higher Education Code, **Article XIV**, Section 159.

To comply with the law and to record sequence for each of the seven positions, each seven-year term ends on June 30 of a given year.

Position No. 1

Originally (6-30-69) for ONE year — 1969-1970.
Thereafter for a 7-year term.
William P. Francis appointed 6-3-69; Guy Berry, Jr. 10-12-70; Harley Van Cleave 4-13-71; Charles A. Kothe 5-25-73; William J. Cecka, Jr. 6-4-75; Edwynne Krumme 7-13-77; term expires 6-30-84.

Position No. 2

Originally (6-30-69) for TWO years — 1969-1971.
Thereafter for a 7-year term.
W. J. Bovaird appointed 6-3-69; Thad Taylor, Jr. 6-20-72, reappointed 7-26-78; term expires 6-30-85.

Position No. 3

Originally (6-30-69) for THREE years — 1969-1972.
Thereafter for a 7-year term.
T. Oscar Chappelle appointed 6-30-69, reappointed 3-17-75, reappointed 7-3-79; term expires 6-30-86.

Position No. 4

Originally (6-30-69) for FOUR years — 1969-1973.
Thereafter for a 7-year term.
Mrs. James L. Wells appointed 6-30-69; Anne McWilliams 7-19-73, reappointed 7-1-80; term expires 6-30-87.

Position No. 5

Originally (6-30-69) for FIVE years — 1969-1974.
Thereafter for a 7-year term.
George Warde appointed 6-30-69; George E. Norvell 6-4-75; reappointed 7-22-81; term expires 6-30-88.

Position No. 6

Originally (6-30-69) for SIX years — 1969-1975.
Thereafter for a 7-year term.
Wayman E. Humphrey appointed 6-30-69, reappointed 6-4-75; term expires 6-30-82.

Position No. 7

Originally (6-30-69) for SEVEN years — 1969-1976.
Thereafter for a 7-year term.
John W. Sublet appointed 6-30-69; W. Keith Rapp 1-3-77; Sheldon Detrick 4-14-81; term expires 6-30-83.

BOARD OF REGENTS OF WESTERN OKLAHOMA STATE COLLEGE

		Term Expires
Berniece Underwood	Willow	1988
Charles Eckenrode	Frederick	1987
John McKee	Snyder	1986
John P. Gover	Altus	1985
Johnnie C. Diltz	Altus	1984
Gerald Smith	Altus	1983
Earl E. Abernathy	Altus	1982

BOARD POSITIONS

Oklahoma Higher Education Code, **Article XIV**, Section 164.

To comply with the law and to record sequence for each of the seven positions, each seven-year term ends on March 24 of a given year.

Position No. 1

Originally (3-24-71) for ONE year — 1971-1972.
Thereafter for a 7-year term.
H. Keith Myers, Jr., appointed 3-24-71, reappointed 9-15-72; Emory S. Crow 4-6-78, reappointed 4-23-79; John McKee 6-4-80; term expires 3-24-86.

Position No. 2

Originally (3-24-71) for TWO years — 1971-1973.
Thereafter for a 7-year term.
Waldo T. Oden appointed 3-24-71; Charles Eckenrode 10-15-76, reappointed 6-4-80; term expires 3-24-87.

Position No. 3

Originally (3-24-71) for THREE years — 1971-1974.
Thereafter for a 7-year term.
Berniece Underwood appointed 6-1-71, reappointed 7-6-75, reappointed 5-19-81; term expires 3-24-88.

Position No. 4

Originally (3-24-71) for FOUR years — 1971-1975.
Thereafter for a 7-year term.
Earl E. Abernathy appointed 3-24-71, reappointed 4-29-75; term expires 3-24-82.

Position No. 5

Originally (3-24-71) for FIVE years — 1971-1976.
Thereafter for a 7-year term.
Darill L. Leverett appointed 3-24-71; Guy Southall 12-17-76; Gerald Smith 3-2-81; term expires 3-24-83.

Position No. 6

Originally (3-24-71) for SIX years — 1971-1977.
Thereafter for a 7-year term.
Johnnie C. Diltz appointed 10-13-72, reappointed 5-31-77; term expires 3-24-84.

Position No. 7

Originally (3-24-71) for SEVEN years — 1971-1978.
Thereafter for a 7-year term.
John P. Gover appointed 3-24-71, reappointed 3-30-78; term expires 3-24-85.

OKLAHOMA INSTITUTIONS OF HIGHER EDUCATION

All of the generally recognized institutions in Oklahoma, both public and private, offering work at the higher education level are listed below:

COMPREHENSIVE, REGIONAL, AND SENIOR STATE UNIVERSITIES:

University of Oklahoma, Dr. William S. Banowsky, President, Norman
Oklahoma State University, Dr. L. L. Boger, President, Stillwater
Central State University, Dr. Bill Lillard, President, Edmond
East Central Oklahoma State University, Dr. Stanley P. Wagner, President, Ada
Northeastern Oklahoma State University, Dr. W. Roger Webb, President, Alva
Southeastern Oklahoma State University, Dr. Leon Hibbs, President, Durant
Southwestern Oklahoma State University, Dr. Leonard Campbell, President, Weatherford
Cameron University, Dr. Don C. Davis, President, Lawton
Langston University, Dr. Ernest L. Holloway, President, Langston
Oklahoma Panhandle State University, Dr. Thomas L. Palmer, President, Goodwell
University of Science and Arts of Oklahoma, Dr. Roy Troutt, President, Chickasha
The Oklahoma College of Osteopathic Medicine and Surgery (Professional College), Dr. John Barson, President, Tulsa

STATE JUNIOR COLLEGES:

Carl Albert Junior College, Dr. Joe E. White, President, Poteau
Claremore Junior College, Dr. Richard H. Mosier, President, Claremore
Connors State College of Agriculture and Applied Science, Dr. Carl O. Westbrook, President, Warner
Eastern Okahoma State College, Dr. James M. Miller, Pesident, Wilburton
El Reno Junior College, Dr. Bill S. Cole, President, El Reno
Murray State College, Dr. Clyde R. Kindell, President, Tishomingo
Northeastern Oklahoma A&M College, Dr. D. D. Creech, President, Miami
Northern Oklahoma College, Dr. Edwin E. Vineyard, President, Tonkawa

Oscar Rose Junior College, Dr. Joe Packnett, President, Midwest City
Seminole Junior College, Dr. Elmer Tanner, President, Seminole
South Oklahoma City Junior College, Dr. Dale L. Gibson, President, Oklahoma City
Tulsa Junior College, Dr. Alfred M. Philips, President, Tulsa
Western Oklahoma State College, Dr. W. C. Burris, President, Altus

Sayre Junior College (Community Junior College), Harry Patterson, President, Sayre

PRIVATE UNIVERSITIES AND SENIOR COLLEGES:

Bartlesville Wesleyan College, Dr. John M. Snook, President, Bartlesville
Bethany Nazarene College, Dr. John A. Knight, Sr., President, Bethany
Midwest Christian College, Dr. Stanley D. Letcher, Jr., President, Oklahoma City
Oklahoma Baptist University, Dr. E. Eugene Hall, President, Shawnee
Oklahoma Christian College, Dr. J. Terry Johnson, President, Oklahoma City
Oklahoma City University, Dr. Jerald C. Walker, President, Oklahoma City
Oklahoma Missionary Baptist College, Institute & Seminary, Dr. R. T. Perritt, President, Marlow
Oral Roberts University, Dr. Oral Roberts, President, Tulsa
Phillips University, Dr. Joe R. Jones, President, Enid
Southwestern College of Christian Ministries, Dr. E. Leroy Baker, President, Bethany
The University of Tulsa, Dr. J. Paschal Twyman, President, Tulsa

PRIVATE JUNIOR COLLEGES:

Bacone College, Dr. Paul V. Moore, Acting President, Muskogee
Hillsdale Free Will Baptist College, Don Elkins, President, Moore
St. Gregory's College, Father Michael Roethler, President, Shawnee

Spartan School of Aeronautics (Proprietary Junior College), Vernon M. Setterholm, President, Tulsa

RECORD OF PRESIDENTS OF INSTITUTIONS

STATE UNIVERSITIES AND COLLEGES

University of Oklahoma, Norman. Presidents: David Ross Boyd, 1892-1908; Arthur Grant Evans, 1908-1911; Julien Charles Monnet, 1911-1912 (Acting); Stratton Duluth Brooks, 1912-1923; James Shannon Buchanan, 1923-1924 (Acting), 1924-1925; William Bennett Bizzell, 1925-1941; Joseph August Brandt, 1941-1943; George Lynn Cross, 1944 (Acting), 1944-1968; John Herbert Hollomon, 1968-1970; Pete Kyle McCarter, 1970-1971 (Acting); Paul F. Sharp, 1971-1978; William S. Banowsky, 1978-.

Oklahoma State University, Stillwater. Presidents: R. J. Barker, 1891-1894; Henry E. Alvord, 1894-1895; Edmund D. Murdaugh, January to June, 1895; George E. Morrow, 1895-1899; Angelo C. Scott, 1899-1908; James Henry Connell, 1908-1914; Lowry L. Lewis, 1914-1915; James W. Cantwell, 1915-1921; James B. Eskridge, 1921-1923; George Wilson, June to July, 1923; Richard Gaines Tyler, August to September, 1923; Bradford Knapp, 1923-1928; Clarence H. McElroy, May to June, 1928; Henry G. Bennett, 1928-1951; Oliver S. Willham, 1952-1966; Robert B. Kamm, 1966-1977; James H. Boggs, February to June, 1977 (Acting); L. L. Boger, 1977-.

Central State University, Edmond. Presidents: Richard Thatcher, 1891-1893; George W. Winans, 1893-1894; E. R. Williams, 1894-1895; E. D. Murdaugh, 1895-1901; F. H. Umholtz, 1901-1906; T. W. Butcher, 1906-1908; James A. McLauchlin, 1908-1911; Charles Evans, 1911-1916; Grant B. Grumbine, 1916-1917; J. W. Graves, 1917-1919; John G. Mitchell, 1919-1931; M. A. Beeson, 1931-1935; John O. Mosley, 1935-1939; Roscoe R. Robinson, 1939-1948; W. Max Chambers, 1949-1960; Garland Godfrey, 1960-1975; Bill J. Lillard, 1975-.

East Central Oklahoma State University, Ada. Presidents: Charles W. Briles, 1909-1916; J. M. Gordon, 1916-1920; A. Linscheid, 1920-1949; C. F. Spencer, 1949-1969; Stanley P. Wagner, 1969-.

Northeastern Oklahoma State University, Tahlequah. Presidents: Albert Sydney Wyly, 1909; D. Frank Redd, 1909-1911; Frank E. Buck, 1911-1912; W. E. Gill, 1912-1914; George W. Gable, 1914-1919; William T. Ford, 1919-1923; Monroe Percy Hammond, 1923-1935; John Monroe Hackler, 1935-1936 (Acting); John Samuel Vaughan, 1936-1951; Louis H. Bally, January to March, 1951 (Acting); Harrell E. Garrison, 1951-1970; Robert E. Collier, 1970-1977; Elwin Fite, 1977-1978 (Acting); W. Roger Webb, 1978-.

Northwestern Oklahoma State University, Alva. Presidents, James

E. Ament, 1897-1902; Thomas W. Conway, 1902-1907; Walter L. Ross, 1907-1910; Grant B. Grumbine, 1910-1916; J. W. Graves, 1916-1917; A. S. Faulkner, 1917-1919; J. P. Battenberg, 1919-1928; Sabin C. Percefull, May to August, 1928 (Acting); W. W. Parker, 1928-1933; O. E. Hatcher, 1933-1935; Sabin C. Percefull, 1935-1936 (Acting); E. E. Brown, 1936-1939; Chester O. Newlun, 1939-1943; Sabin C. Percefull, 1943-1955; Luther D. Brown, 1955-1956; J. W. Martin, 1956-1972; R. William Wygle, 1972-1974; Joe J. Sruckle, 1975-.

Southeastern Oklahoma State University, Durant. Presidents: Marcus E. Moore, 1909-1911; Edmund D. Murdaugh, 1911-1914; William C. Canterbury, 1914-1915; Andrew S. Faulkner, 1915-1916; T. D. Brooks, 1916-1919; Henry G. Bennett, 1919-1928; Eugene S. Briggs, 1928-1933; Wade H. Shumate, 1933-1935; Kate Galt Zaneis, 1935-1937; W. B. Morrison, June to July, 1937 (Acting); H. Vance Posey, 1937-1939; T. T. Montgomery, 1939-1952; A. E. Shearer, 1952-1967; Leon Hibbs, 1967-.

Southwestern Oklahoma State University, Weatherford. Presidents: James Robert Campbell, 1903-1907; John Fletcher Sharp, 1907-1911; Ulysses J. Griffith, 1911-1915; James B. Eskridge, 1915-1921; Alfred H. Burris, 1921-1923; James Walter Turner, 1923-1927; Ernest Edward Brown, 1927-1932; Charles Walter Richards, 1932-1935; Walter W. Isle, 1935-1939; James B. Boren, 1939-1942; G. S. Sanders, 1942-1945; R. Harold Burton, 1945-1960; Al Harris, 1960-1975; Leonard Campbell, 1975-.

Cameron University, Lawton, Presidents: J. A. Liner, 1909-1912; R. K. Robertson, 1912-1913; E. M. Frost, 1913-1914; R. P. Short, 1914-1915; A. C. Farley, 1915-1920; A. E. Wickizer, 1920-1923; J. G. March, 1923-1927; John L. Coffey, 1927-1932; C. M. Conwill, 1932-1943; C. H. Breedlove, 1943-1947; C. Vernon Howell, 1947-1957; Clarence L. Davis, 1957-1960; Richard Burch, 1960-1969; Don Owen, 1969-1980; Richard Murray, April to June, 1980 (Acting); Don C. Davis, 1980-.

Langston University, Langston. Presidents: Inman E. Page, 1898-1915; Isaac B. McCutcheon, 1915-1916; John M. Marquess, 1916-1923; I. W. Young, 1923-1927; Z. T. Hubert, 1927-1931; I. W. Young, 1931-1935; J. W. Sanford, 1935-1939; G. L. Harrison, 1939-1960; William H. Hale, 1960-1970; William E. Sims, 1970-1974; James Mosley, 1974-1975 (Acting); Thomas E. English, 1975-1977; Ernest L. Holloway, 1977-1978 (Acting); Samuel J. Tucker, April to December, 1978; Ernest L. Holloway, 1978-1979 (Acting), 1979-.

Oklahoma Panhandle State University; Goodwell. Presidents: S. W. Black, 1909-1915; J. F. Sharp, 1915-1919; George A. Coffey, 1919-1922; A. W. Fanning, 1922-1933; Byron Dacus, 1933-1936; E. L. Morrison, 1936-

1944; Marvin McKee, 1944-1968; Freeman McKee, 1968-1971; Thomas L. Palmer, 1971-.

University of Science and Arts of Oklahoma, Chickasha. Presidents: H. B. Abernathy, 1909-1911; J. Alexander Moors, 1911-1912; Jonas Cook, May to July, 1912 (Acting); J. B. Eskridge, 1912-1914; G. W. Austin, 1914-1926; M. A. Nash, 1927-1943; C. Dan Proctor, 1943-1958; Freeman H. Beets, 1958-1961; Kenneth Young, 1961-1962 (Acting); Charles E. Grady, 1962-1966; H. B. Smith, Jr., 1966-1967 (Acting); Robert L. Martin, 1967-1972; Bruce G. Carter, 1972-1975; Roy Troutt, 1975-.

The Oklahoma College of Osteopathic Medicine and Surgery, Tulsa. Presidents: John Barson, 1973-.

*Carl Albert Junior College, Poteau, Presidents; Orville Johnson, 1967-1973; Norman McNabb, 1973-1975; James K. Fritze, April to June, 1975 (Acting); Joe E. White, 1975-.

Claremore Junior College, Claremore. Presidents: Col. Stephen Melvel Barrett, 1919-1924; Col. W. S. Bryan, 1924-1925 (Acting); Col. Walter E. Downs, 1925-1940; Col. R. E. Anderson, 1940-1941; Capt. John C. Hamilton, February to July, 1941 (Acting), 1941-1944; Col. W. S. Bryan, July to November, 1944 (Acting); Col. Kenneth S. Perkins, 1944-1948; Col. Homer M. Ledbetter, 1948-1964; Maj. Gen. J. F. Smoller, 1964-1968; Col. John Horne, 1968-1972; Richard H. Mosier, 1972-.

Connors State College of Agriculture and Applied Science, Warner. Presidents: J. A. Liner, 1909-1910; J. S. Murray, 1910-1911; J. V. Faulkner, 1911-1912; W. S. Jackson, 1912-1913; President Rennick, 1913-1914; J. S. Malone, 1915-1917; George A. Coffey, 1917-1919; H. C. King, 1919-1932; Jacob Johnson, 1933-1965; Melvin Self, 1965-1978; Carl O. Westbrook, 1978-.

Eastern Oklahoma State College, Wilburton, Presidents: George E. Ladd, 1908-1913; E. P. Barrett, 1913-1915; J. W. Graves, 1915-1916; Lynn Glover, 1916-1917; (School closed 1917-1919); Mead S. Johnson, 1919-1923; J. K. Walsh, 1923-1924; E. E. Tourtellotte, 1924-1936; Ohland Morton, 1936-1937 (Acting); C. C. Dunlap, 1937-1951; R. B. Mitchell, 1951-1952, (Acting); E. T. Dunlap, 1952-1961; J. N. Baker, 1961-1969; Walter Williams, 1969 (Acting); James M. Miller, 1970-.

El Reno Junior College, El Reno, Presidents: Leslie Roblyer 1967-1971; Art Harrison, 1971-1975; Bill S. Cole, 1976-.

Murray State College, Tishomingo, Presidents: James A. Wilson, 1908; P. B. H. Shearer, 1908-1909 (Acting), 1909-1910; Hal L. Muldrow, 1910-1914; R. M. McCool, 1914-1930; Otto E. Shaw, 1930-1931; Clive E. Murray, 1931-1961 (military leave 1940-1946 and military leave 1948-

1954); M. C. Courtney, 1940-1941 (Acting); A. D. Patton, 1941-1946 (Acting); C. J. Hall, 1948-1951 (Acting): William Parrish, 1951-1954 (Acting); Charles E. Grady, 1961-1962; Freeman McKee, 1962-1967; Clyde R. Kindell, 1967-.

Northeastern Oklahoma A&M College, Miami. Presidents: Walter O. Cralle, 1922-1924; M. R. Floyd, 1924-1931; Lloyd B. Drake, 1931-1933; John E. Holcomb, 1933-1937; Earl E. Emerson, 1937-1938; E. L. Smith, 1938-1939; Sabin C. Percefull, 1939-1942; Bruce G. Carter, 1943-1970; D. D. Creech, 1970-.

Northern Oklahoma College, Tonkawa, Presidents: James H. Kelly, 1902-1909; John Alley, 1909-1911; Lynn Glover, 1911-1916; W. C. Frency, 1916-1917; (School closed 1917-1919); R. M. Caldwell, 1919-1928; R. R. Robinson, 1928-1939; Loren N. Brown, 1939-1951; George P. Huckaby, 1951-1952; Howard R. Harold, 1952-1953 (Acting); V. R. Easterling, 1953-1965; Edwin E. Vineyard, 1965-.

Oscar Rose Junior College, Midwest City. Presidents: Jacob Johnson, 1968-1972; Joe Leone, 1972-1978; Joe Packnett, 1978-1979 (Acting), 1979-.

*Seminole Junior Collge, Seminole. Presidents: H. B. Mitchell, 1967-1969; Elmer Tanner, 1969-.

South Oklahoma City Junior College, Oklahoma City. Presidents: J. C. Nichols, 1970-1971; John E. Cleek, 1971-1974; Al Taylor, March to April, 1974 (Acting); Hugh Turner, April to August, 1974 (Acting); Al Taylor, August to November, 1974 (Acting); Dale L. Gibson, 1974-.

Tulsa Junior College, Tulsa. Presidents: Alfred M. Philips, 1969-.

*Western Oklahoma State College, Altus. Presidents: Cecil Chesser, 1970-1971 (Acting); W. C. Burris, 1971-.

*Sayre Junior College, Sayre. Presidents: Harry Patterson, 1967-.
